Armenia Azerbaijan Conflict Causes And Implications:

The Armenia-Azerbaijan Conflict Michael P. Croissant, 1998-07-23 Of all the violent disputes that have flared across the former Soviet Union since the late 1980s the Armenia Azerbaijan conflict is the only one to pose a genuine threat to peace and security throughout Eurasia By right of its strategic location and oil resources the Transcaucasus has been and will continue to be a source of interest for external powers competing to advance their geopolitical influence in the region Under such conditions the possibility will remain for the Armenia Azerbaijan conflict to reignite and expand to include other powers The ten year conflict between Armenia and Azerbaijan has been one of the bloodiest and most intractable disputes to emerge from the breakup of the Soviet Union Animosity that developed between the Armenians and Azeris under czarist Russian rule was fueled by the rise of a dispute over Nagorno Karabakh a mountainous region for which both peoples feel an intense nationalistic affinity The attachment of the region to Azerbaijan by Stalin in 1923 became a source of deep resentment for the Armenians and during the rule of Gorbachev a campaign was begun to achieve the peaceful unification of Armenia and Karabakh Azerbaijan resisted the move as a threat to its territorial integrity and clashes that broke out soon escalated into a full scale war that outlived the USSR itself Although a cease fire has been observed since May 1994 a peaceful settlement to the conflict has been elusive Meanwhile by right of both the strategic location and resources and the unique security characteristics of the Transcaucasus major external powers Russia Turkey and Iran have sought to influence the dispute according to their geopolitical interests With the growth of interest in the oil riches of the Caspian Sea and the increasing engagement of Western countries including the United States the risks and implications of renewed violence between Armenia and Azerbaijan will grow This major study will be of interest to students scholars and policymakers involved with international relations military affairs and the Transcaucasus [The Karabakh Conflict Between Armenia and Azerbaijan](#) M. Hakan Yavuz, Michael M. Gunter, 2022-11-29 This book focuses on Post Soviet ethnic conflicts and Russia's involvement in them In light of its significant importance for general ethnic conflict specifically the post Soviet Caucasus along with the most recent war just fought over the area from September November 2020 this book appropriately argues that it is time to reconsider Karabakh This project deals with the historical social and political aspects of the Karabakh issue regarding its origins development and the current status of the conflict subsequent to the war in the autumn of 2020 Thus the main themes will stress these points as well as the importance of the Karabakh issue for the future by considering its precedents and implications for other secessionist wars This book also explores how such wars begin and end the international legal precedents of self determination versus territorial integrity its implications for post Soviet developments and conflicts and the latest successful weapons developments lessons from the recent war involving drones among others such as Azerbaijan's rich oil reserves [Ethnic Conflict and International Security](#) Michael E. Brown, 1993-09-27 8 Ethnic conflict and refugees by Kathleen Newland [Ethnicity, Nationalism and Conflict in the South Caucasus](#) Ohannes

Geukjian,2016-05-13 This book examines the underlying factors of the Nagorno Karabakh conflict in the South Caucasus from 1905 to 1994 and explores the ways in which issues of ethnicity and nationalism contributed to that conflict The author examines the historiography and politics of the conflict and the historical territorial and ethnic dimensions which contributed to the dynamics of the war The impact of Soviet policies and structures are also included pinpointing how they contributed to the development of nationalism and the maintenance of national identities The book firstly explores the historical development of the Armenian and Azerbaijani national identities and the overlapping claims to the territory of Nagorno Karabakh The author goes on to assess the historical link between ethnicity and territorial location as sources of ethnic identification and conflict He examines how identity differences shaped the relationsa between Armenians and Azerbaijanis during the different phases of conflict and presents a detailed historical account of Soviet nationalities policy and ethno territorial federalism the basis of which ethnic relations were conducted between governing and minority nations in the south Caucasus This invaluable book offers students and scholars of post Soviet politics and society a unique insight into the causes and consequences of this long standing conflict **The Nagorno-Karabakh Conflict** M. Hakan Yavuz,Michael

Gunter,2022-07-01 This book presents a comprehensive overview of the Nagorno Karabakh conflict the long running dispute between Armenia and Azerbaijan over the Armenian majority region of Azerbaijan It outlines the historical development of the dispute explores the political and social aspects of the conflict examines the wars over the territory including the war of 2020 which resulted in a significant Azerbaijani victory and discusses the international dimensions The Armenian Issue and the Jews Sedat Laçiner,Ibrahim Kaya,2002 **Negotiating Armenian-Azerbaijani Peace** Ohannes

Geukjian,2016-04-22 Conflict resolution conflict management and conflict transformations are major themes in this unique book which examines explores and analyses the mediation attempts of the Organization for Security and Cooperation in Europe in the Nagorno Karabakh conflict Ohannes Geukjian shows the most striking characteristic of a protracted internal conflict such as this is its asymmetry and explains that without meeting basic human needs like identity recognition security and participation resolving any protracted social conflict is very difficult The Armenian Azerbaijani case demonstrates how official diplomacy may not be able to solve protracted internal conflicts as without addressing the real causes of the problematic relationship attempts at peace making will always be sporadic and the space for mutual understanding and compromise shrink Geukjian shows that conflict transformation has a particular salience in asymmetric conflicts such as this where the goal is to transform unjust relationships and where a high degree of polarisation between the disputants has taken root Using the Nagorno Karabakh case this book focuses on the anatomy and causes of deadlock in negotiations and highlights the many difficulties in achieving a breakthrough *The Use and Utility of Ultimata in Coercive Diplomacy* Tim Sweijs,2023-05-12 Ultimata feature as a core concept in the coercive diplomacy scholarship Conventional wisdom holds that pursuing an ultimatum strategy is risky This book shows that the conventional wisdom is wrong on the basis of a new dataset

of 87 ultimatums issued from 1920-2020. It provides a historical examination of ultimatums in Western strategic, political and legal thought since antiquity until the present and offers a four-pronged typology that explains their various purposes and effects: 1 the dictate, 2 the conditional war declaration, 3 the bluff and 4 the brinkmanship ultimatum. The book yields a better understanding of interstate threat behaviour at a time of surging competition. Background materials can be consulted at www.coercivediplomacy.com.

Small Nations and Great Powers Svante Cornell, 2005-06-28. A thorough in-depth analysis of the current and potential conflicts in the Caucasus including the geographical, historical and ethno-linguistic framework of the Caucasus, the individual conflicts and the place of the Caucasus in world affairs.

Regional Cooperation in the South Caucasus Tracey German, 2016-04-08. The South Caucasus region comprising the former Soviet states of Armenia, Azerbaijan and Georgia occupies a key strategic location squeezed between the Black and Caspian Seas, Iran, Russia and Turkey. Since the disintegration of the Soviet Union in 1991, the region has become an arena of geopolitical confrontation with regional powers such as Russia, Turkey and Iran vying for influence in the face of growing Western involvement. The Russian military intervention in Georgia in 2008 not only raised questions about Moscow's intentions towards its Near Abroad and the future direction of its foreign policy, it also demonstrated that ostensibly local separatist disputes have serious ramifications for regional relations and the wider international community. In this book, German explores the extent of regional cooperation in the South Caucasus, analyses the reasons for the relative lack of regional cooperation and assesses the potential for deeper cooperation in the future.

Secessionist Rule Franziska Smolnik, 2016-09-08. Franziska Smolniks Untersuchung stellt sich auf die südkaukasischen international nicht beziehungsweise nur zum Teil anerkannten De facto Staaten, die sich weiterhin im Konflikt mit ihren einstigen Metropolstaaten befinden. Sie zeigt, wie auch sogenannte Gewaltkonflikte niedriger Intensität die Form und Funktion von politischer Herrschaft entscheidend prägen können.

New Wars and Old Plagues Katherine Hirschfeld, Kirsten de Beurs, Brad Brayfield, Ani Melkonyan-Gottschalk, 2023-06-12. This Open Access book uses Mary Kaldor's concept of New Wars to explore how ethnic conflict reshaped the social and environmental landscape of the Southern Caucasus following the collapse of the Soviet Union. It relies on remote sensing data and qualitative historical research to explore how armed conflict between non-state actors generated the region's largest epidemic of *P. vivax* malaria since the 1960s. This book is an important addition to the literature on the Karabakh conflict and conflict studies more broadly because the infectious disease outbreaks associated with warfare often kill more people than the armed conflicts themselves. Warfare itself has also changed dramatically since the collapse of the USSR and the Karabakh conflict provides an excellent case study of the way New Wars transform the natural and social environment to facilitate outbreaks of preventable disease. This extended case study will be useful to researchers from a variety of academic disciplines including medical anthropology, geography, conflict studies, disease ecology, global health and public health. It also reveals the fragility of twentieth-century malaria control in temperate regions and will assist in predictive modeling for future outbreaks.

The Caucasus - An

Introduction Frederik Coene, 2009-10-16 This book presents a comprehensive introduction to the Caucasus. It covers the geography and the historical development of the region, economics, politics and government, population, religion and society, culture and traditions, and conflicts and international relations. It is written throughout in an accessible style and requires no prior knowledge.

The Politics of Transition in Central Asia and the Caucasus Amanda E. Wooden, Christoph H. Stefes, 2009-06-08 Most books on the Caucasus and Central Asia are country by country studies. This book, on the other hand, fills a gap in Central Eurasian studies as one of the few comparative case study books on Central Eurasia covering both the Caucasus and Central Asia. It considers key themes right across the two regions, highlighting both political change and continuity. Comparative case study chapters written by regional experts from a variety of methodological backgrounds provide historical context and evaluate Soviet political legacies and emerging policy outcomes. Key topics include the varied types and sources of authoritarianism, political opposition and protest, politics, predetermined outcomes of post-Soviet economic choices, social and stability impacts of natural resource wealth variations, in educational reform, international norm influence on gender policy, and the power of human rights activists. Overall, the book provides a thorough up-to-date overview of what is increasingly becoming a significant area of concern.

Armenia's Future, Relations with Turkey, and the Karabagh Conflict Levon Ter-Petrossian, 2017-09-18 This project addresses recurring questions about Armenian-Turkish relations, the legacy of the Armenian genocide of 1915, and relations between the Armenian diaspora and the Republic of Armenia. Additionally, it discusses the ongoing conflict with Azerbaijan and the Armenian government's handling of the commemoration of the one hundredth anniversary of the Armenian genocide.

Not by Bread Alone Robert Nalbandov, 2016-01-01 Since its independence in 1991, Russia has struggled with the growing pains of defining its role in international politics. After Vladimir Putin ascended to power in 2000, the country undertook grandiose foreign policy projects in an attempt to delineate its place among the world's superpowers. With this in mind, Robert Nalbandov examines the milestones of Russia's international relations since the turn of the twenty-first century. He focuses on the specific goals, engagement practices, and tools used by Putin's administration to promote Russia's vital national and strategic interests in specific geographic locations. His findings illuminate Putin's foreign policy objective of reinstituting Russian global strategic dominance. Nalbandov argues that identity-based politics have dominated Putin's tenure and that Russia's east-west split is reflected in Asian-European politics. Nalbandov's analysis shows that unchecked domestic power, an almost exclusive application of hard power, and determined ambition for unabridged global influence and a defined place as a world superpower are the keys to Putin's Russia.

Azerbaijan's Geopolitical Landscape Farid Shafiyev, 2020-12-01 Being located between the Black and Caspian seas, Azerbaijan has always been the juncture of Eurasia with a traditional reputation as a crossroads between the north-south and east-west transport corridors and the traditional ground for competition between numerous regional and global players using both soft and hard power. With its vast hydrocarbon energy reserves,

Azerbaijan is a country of particular importance in the South Caucasus. The region's complex geopolitics have immensely influenced Azerbaijan's foreign policy strategy. With the dissolution of the USSR, Azerbaijan as a new state with fragile security found itself in a complicated situation surrounded by regional powers like Iran, Russia, and Turkey. The book is built around several major foreign policy issues faced by the Republic of Azerbaijan since it regained its independence in 1991. These major issues include the conflict with Armenia and related matters, the relationship with the West, as well as the complexities arising from its relationship with Russia and its ties to Muslim countries such as Iran and Saudi Arabia.

Fear, Weakness and Power in the Post-Soviet South Caucasus K. Oskanien, 2013-10-24. This book provides a multi-level analysis of international security in the South Caucasus. Using an expanded and adapted version of Regional Security Complex Theory, it studies both material conditions and discourses of insecurity in its assessment of the region's possible transition towards a more peaceable future.

Contested Nationalism Nina Caspersen, 2010. Only unity saves the Serbs is the famous call for unity in the Serb nationalist doctrine. But even though this doctrine was ideologically adhered to by most of the Serb leaders in Croatia and Bosnia, disunity characterized Serb politics during the Yugoslav disintegration and war. Nationalism was contested and nationalist claims to homogeneity did not reflect the reality of Serb politics. This book provides a comprehensive analysis of Serb politics and challenges widespread assumptions regarding the Yugoslav conflict and war. It finds that although Slobodan Milosevic played a highly significant role, he was not always able to control the local Serb leaders. Moreover, it adds to the emerging evidence of the lack of importance of popular attitudes; hardline dominance was generally based on the control of economic and coercive resources rather than on elites successfully playing the ethnic card. It moves beyond an assumption of automatic ethnic outbidding and thus contributes toward a better understanding of intra-ethnic rivalry in other cases such as Israel/Palestine, Northern Ireland, Nagorno Karabakh, and Rwanda.

Secessionist Entities and International Law Benedikt C. Harzl, 2025-03-20. This book examines secessionist entities that arose during and after the dissolution process of the USSR and considers them as legal subjects in their own right. By employing a novel and more innovative approach, the agency of these subjects, otherwise often ignored or disregarded, is taken into account. Drawing on the cases of the South Caucasus, the author suggests going beyond the binary concept of statehood and traditional notions of sovereignty. He advocates embracing an inclusive reading of international law which enables to foster creative ambiguity vis-à-vis these entities as means of conflict transformation.
