Deep Fusion of Computational and Symbolic Processing Takeshi Furuhashi, Shun'ichi Tano, Hans-Arno Jacobsen, 2012-12-06 Symbolic processing has limitations highlighted by the symbol grounding problem Computational processing methods like fuzzy logic neural networks and statistical methods have appeared to overcome these problems However they also suffer from drawbacks in that for example multi stage inference is difficult to implement Deep fusion of symbolic and computational processing is expected to open a new paradigm for intelligent systems Symbolic processing and computational processing should interact at all abstract or computational levels For this undertaking attempts to combine hybridize and fuse these processing methods should be thoroughly investigated and the direction of novel fusion approaches should be clarified This book contains the current status of this attempt and also discusses future directions 1997

History and Anti-History in Philosophy Victorino Tejera, 2017-07-05 History and Anti History in Philosophy demonstrates the viability of the idea of the unity of philosophic thinking and the reflective practice of the history of philosophy It is a concise in depth history of the deconstructive turn in philosophy and of the styles of historical and interpretive contextualization afforded by diverse schools of thought Thematic unity arises from the focus of contributors on the historical dimension of reflection in philosophy History of philosophy and intellectual history come together when they are forced to practice foundational analysis namely when they feel the need to uncover indubitables of society Indubitables are deeply held usually unnoticed premises upon which a society or group acts builds and speaks By foundational analysis the editors do not mean the search for acceptable starting points of intellectual exploration but the ongoing criticism of all such postulates of faith For those interested in contextual analysis of Kant Hegel Marx Dewey Mannheim Husserl Dilthey Heidegger and Gadamer this is an invaluable guide The editors make plain their belief that not using history as have past philosophies is unphilosophic ideas in personal construction to a text that cannot supply reasons for being taken seriously in history This volume illuminates the achievements of present day social science
