An Audience of Artists Catherine Craft, 2012-05-30 An Audience of Artists turns this time line for the postwar New York art world on its head presenting a new pedigree for these artistic movements Drawing on an array of previously unpublished material Catherine Craft reveals that Neo Dada far from being a reaction to Abstract Expressionism actually originated at the heart of that movement s concerns about viewers originality and artists debts to the past and one another Furthermore she argues the original Dada movement was not incompatible with Abstract Expressionism In fact Dada provided a vital historical reference for artists and critics seeking to come to terms with the radical departure from tradition that Abstract Expressionism seemed to represent Tracing the activities of artists such as Robert Motherwell Barnett Newman and Jackson Pollock alongside Marcel Duchamp s renewed embrace of Dada in the late 1940s Craft explores the challenges facing artists trying to work in the wake of a destructive world war and the paintings objects writings and installations that resulted from their efforts

Jacket The Organic Line Irene V. Small, 2024-10-08 A major rethinking of twentieth century abstract art mobilized by the work of Brazilian artist Lygia Clark What would it mean to treat an interval of space as a line thus drawing an empty void into a constellation of art and meaning laden things In this book Irene Small elucidates the signal discovery of the Brazilian artist Lygia Clark in 1954 a fissure of space between material elements that Clark called the organic line For much of the history of art Clark s discovery much like the organic line has escaped legibility Once recognized however the line has seismic repercussions for rethinking foundational concepts such as mark limit surface and edge A spatial cavity that binds discrepant entities together the organic line transforms planes into flexible topologies borders into membranes and interstices into points of connection As a paradigm the organic line has profound historiographic implications as well inviting us to set aside traditional notions of influence and origin in favor of what Small terms weak links and plagiotropic relations These fragile oblique and transversal ties have their own efficacy and Small s innovative readings of canonical modernist works such as Kazimir Malevich s Black Square John Cage s 4 33 and Le Corbusier s machine habiter as well as contemporary works by such artists as Adam Pendleton Ricardo Basbaum and Mika Rottenberg reveal the organic line s

remarkable potential as an analytic instrument Mobilizing a rich repertoire of archival sources and moving across multiple chronologies geographies and disciplines this book invites us to envision modernism not as a stable construct defined by centers and peripheries inclusions and exclusions but as a topological field of interactive destabilizing tensions More than a history of a little known artistic device *The Organic Line Toward a Topology of Modernism* is a user's guide and manifesto for reimagining modern and contemporary art for the present *Art, Design, Photo*, 1980 *Modern Art and the Life of a Culture* Jonathan A. Anderson, William A. Dyrness, 2016-05-23 In 1970 Hans Rookmaaker published *Modern Art and the Death of a Culture* a groundbreaking work that considered the role of the Christian artist in society This volume responds to his work by bringing together a practicing artist and a theologian who argue that modernist art is underwritten by deeply religious concerns **Blackening Europe** Heike Raphael-Hernandez, 2012-11-12

Traditional Scholars have often looked at African American studies through the lens of European theories resulting in the secundarization of the African American presence in Europe and its contributions to European culture *Blackening Europe* reverses this pattern by using African American culture as the starting point for a discussion of its influences over traditional European structures Evidence of Europe's blackening abound from French ministers of Hip hop and British incarnations of Shaft to slavery memorial in the Netherlands and German youth sporting dreadlocks Collecting essays by scholars from both sides of the Atlantic and fields as diverse as history literature politics social studies art film and music *Blackening Europe* explores the implications of these cultural hybrids and extends the growing dialogues about Europe's fascination with African America **Catalogue of**

DADA, Surrealism, and the Cinematic Effect R. Bruce Elder, 2015-10-15 This book deals with the early intellectual reception of the cinema and the manner in which art theorists philosophers cultural theorists and especially artists of the first decades of the twentieth century responded to its advent While the idea persists that early writers on film were troubled by the cinema's lowly form this work proposes that there was another largely unrecognized strain in the reception of it Far

from anxious about film's provenance in popular entertainment some writers and artists proclaimed that the cinema was the most important art for the moderns as it exemplified the vibrancy of contemporary life This view of the cinema was especially common among those whose commitments were to advanced artistic practices Their notions about how to recast the art media or the forms forged from those media's materials and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century This book a companion to the author's previous *Harmony Dissent* examines the Dada and Surrealist movements as responses to the advent of the cinema

Intimate Collaborations Bibiana Obler, 2014-05-06 Beautifully illustrated this insightful book looks at two influential artist couples and the roles of gender and the applied arts in the emergence of abstraction

Inventing Abstraction, 1910-1925 Leah Dickerman, Matthew Affron, 2012 This book explores the development of abstraction from the moment of its declaration around 1912 to its establishment as the foundation of avant garde practice in the mid 1920s The book brings together many of the most influential works in abstraction's early history to draw a cross media portrait of this watershed moment in which traditional art was reinvented in a wholesale way Works are presented in groups that serve as case studies each engaging a key topic in abstraction's first years an artist a movement an exhibition or thematic concern Key focal points include Vasily Kandinsky's ambitious *Compositions V VI and VII* a selection of Piet Mondrian's work that offers a distilled narrative of his trajectory to Neo plasticism and all the extant Suprematist pictures that Kazimir Malevich showed in the landmark 0 10 exhibition in 1915 0Exhibition MoMA New York USA 23 12 2012 15 4

2013 Meanings of Abstract Art Paul Crowther, Isabel Wünsche, 2012 This book explores the relation of abstract art to nature Traditional picturing and sculpture are based on conventions of resemblance between the work and that which it is a representation of Abstract works in contrast adopt alternative modes of visual representation or break down and reconfigure the mimetic conventions of pictorial art and sculpture Obviously this means that abstract art takes many different forms However this diversity should not mask some key structural features these center on two basic relations to nature understanding nature in the broadest sense to comprise the world of recognisable objects creatures organisms processes and states of affairs The first involves abstracting from nature to give selected aspects of it a new and extremely unfamiliar appearance The second involves abstract art as the affirmation of a relatively unconstrained natural creativity that issues in new autonomous forms that are not constrained by mimetic conventions Such creativity is often attributed to the power of the unconscious The book contains three categories of essays 1 those on classical modernism Mondrian Malevich Kandinsky Arp early American abstraction 2 those on post war abstraction Pollock Still Newman Smithson Noguchi Arte Povera Michaux postmodern developments and 3 those of a broader art historical and philosophical scope Provided by publisher
