The Friar and the Maya Matthew Restall, Amara Solari, John F. Chuchiak, Traci Ardren, 2023-12-22 The Friar and the Maya offers a full study and new translation of the Relaci n de las Cosas de Yucat n Account of the Things of Yucatan by a unique set of eminent scholars created by them over more than a decade from the original manuscript held by the Real Academia de la Historia in Madrid This critical and careful reading of the Account is long overdue in Maya studies and will forever change how this seminal text is understood and used For generations scholars used and misused the Account as the sole eyewitness insight into an ancient civilization It is credited to the sixteenth century Spanish Franciscan monastic inquisitor and bishop Diego de Landa whose legacy is complex and contested His extensive writings on Maya culture and history were lost in the seventeenth century save for the fragment that is the Account discovered in the nineteenth century and accorded near biblical status in the twentieth as the first ethnography of the Maya However the Account is not authored by Landa alone it is a compilation of excerpts many from writings by other Spaniards a significant revelation made here for the first time This new translation accurately reflects the style and vocabulary of the original manuscript It is augmented by a monograph comprising an introductory chapter seven essays and hundreds of notes that describes explains and analyzes the life and times of Diego de Landa the Account and the role it has played in the development of modern Maya studies The Friar and the Maya is an innovative presentation on an important and previously misunderstood primary source

Maya Imagery, Architecture, and Activity Maline D. Werness-Rude, Kaylee R. Spencer, 2015-05 Maya Imagery Architecture and Activity privileges art historical perspectives in addressing the ways the ancient Maya organized manipulated created interacted with and conceived of the world around them The Maya provide a particularly strong example of the ways in which the built and imaged environment are

intentionally oriented relative to political religious economic and other spatial constructs In examining space the contributors of this volume demonstrate the core interrelationships inherent in a wide variety of places and spaces both concrete and abstract They explore the links between spatial order and cosmic order and the possibility that such connections have sociopolitical consequences This book will prove useful not just to Mayanists but to art historians in other fields and scholars from a variety of disciplines including anthropology archaeology geography and landscape architecture *Engaging Ancient Maya Sculpture at Piedras Negras, Guatemala* Megan E. consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production
