Ways of Seeing John Berger, 1976 A book on visual perception **The Judgement of the Eye** Jürgen

Weber, 2002-07-02 The author Jürgen Weber brings together the results of various disciplines and his own research and experience as a sculptor and painter and stitches together an exciting new theory of perception of form In doing so Weber who also has a scientific background explores the fascinating question of what additional information the thing that is seen conveys How do we tell the difference between a cheerful and a gloomy face Why do we see that a bud will open shortly Why do we find some phenomena to be dangerous and others to be desirable These questions have not yet been investigated in a systematic and scientific way although they are of vital importance to our behaviour No doubt this book represents a unique and timely contribution to the many disciplines concerned with the wonders of perception Ways of Seeing John
