Expositions of Scripture and Practice of Prelates William Tyndale,2004-05-19 The Parker Society was the London based Anglican society that printed in fifty four volumes the works of the leading English Reformers of the sixteenth century It was formed in 1840 and disbanded in 1855 when its work was completed Named after Matthew Parker the first Elizabethan Archbishop of Canterbury who was known as a great collector of books the stimulus for the foundation of the society was provided by the Tractarian movement led by John Henry Newman and Edward B Pusey Some members of this movement spoke disparagingly of the English Reformation and so some members of the Church of England felt the need to make available in an attractive form the works of the leaders of that Reformation *Knowledge, Text and Practice in Ancient Technical Writing* Marco Formisano,Philip van der Eijk,Philip J. Eijk,2017-04-19 This book explores the relationship between theory and practice in ancient Greek and Roman scientific and technical texts *Theory and Practice of Dialogical Community Development* Peter Westoby,Gerard Dowling,2013-07-18 This book proposes that community development has been increasingly influenced and co opted by a modernist soulless rational philosophy reducing it to a shallow technique for solving community problems In contrast this dialogical approach re maps the ground of community development practice within a frame of ideas such as dialogue hospitality and depth For the first time community development practitioners are provided with an accessible understanding of dialogue and its relevance to their practice exploring the contributions of internationally significant thinkers such as P Freire M Buber D Bohm and H G Gadamer J Derrida G Esteva and R Sennett

What makes the book distinctive is that first it identifies a dialogical tradition of community development and considers how such a tradition shapes practice within contemporary contexts and concerns economic social political cultural and ecological Second the book contrasts such an approach with technical and instrumental approaches to development that fail to take complex systems seriously Third the approach links theory to practice through a combination of storytelling and theory reflection ensuring that readers are drawn into a practice theory that they feel increasingly confident has been tried and tested in the world over the past 25 years United in Love Joshua Cockayne,Jonathan C.
