the workplace better than anyone so he's kept his distance But two years is too long to wonder what if especially when business takes them to a private Caribbean island When Tristan and Webber succumb to the tropical heat their professionalism starts to backslide It's a seemingly impossible relationship making a go at it under the paparazzi's microscope It may be the best or the worst business decision they ever made **Gods of Aberdeen** Micah

F. Oliveira, Michael Taborsky, H. Jane Brockmann, 2008-03-13 The study of alternative reproductive tactics the behavioural strategies used by individuals to increase their reproductive success is an evolutionary puzzle and one of great interest to researchers For instance why do some males guard both nest and eggs while others sneak into nests while pairs are spawning and fertilise those eggs The field offers a special opportunity to study the evolution and functional causes of

phenotypic variation which is a general problem in the field of evolutionary biology By integrating both mechanistic psychological and evolutionary behavioural ecology perspectives and by covering a great diversity of species *Alternative Reproductive Tactics* addresses this integrated topic of longstanding interest bringing together a multitude of otherwise scattered information in an accessible form that is ideal for graduate students and researchers
