SANDFORD, 1868 *Hugh Wynford; or, The cousin's revenge* Hugh Wynford (fict.name.), 1866 Boldon Delaval: a love story. Also My Cousin's Story: the man on the grey horse Robert BIGSBY (the Younger.), 1850 *Black Mecca* Zain Abdullah, 2010-09-30 The changes to U S immigration law that were instituted in 1965 have led to an influx of West African immigrants to New York creating an enclave Harlem residents now call Little Africa These immigrants are immediately recognizable as African in their wide sleeved robes and tasseled hats but most native born members of the community are unaware of the crucial role Islam plays in immigrants lives Zain Abdullah takes us inside the lives of these new immigrants and shows how they deal with being a double minority in a country where both blacks and Muslims are stigmatized Dealing with this dual identity Abdullah discovers is extraordinarily complex Some longtime residents embrace these immigrants and see their arrival as an opportunity to reclaim their African heritage while others see the immigrants as scornful invaders In turn African immigrants often take a particularly harsh view of their new neighbors buying into the worst stereotypes about American born blacks being lazy and incorrigible And while there has long been a large Muslim presence in Harlem and residents often see Islam as a force for social good African born Muslims see their Islamic identity disregarded by most of their neighbors Abdullah weaves together the stories of these African Muslims to paint a fascinating portrait of a community's efforts to carve out space for itself in a new country **Hegel and Schelling in Early Nineteenth-Century France** Kirill Chepurin, Adi Eyal-Lautenschläger, Daniel Whistler, Ayşe Yuva, 2023-11-29 Hegel and Schelling in Early Nineteenth Century France is a two volume work that documents the French reception of G W F Hegel and F W J Schelling from 1801 to 1848 It shows that the story of the French Hegel didn't begin with Wahl and Kojve by giving readers a solid understanding of the various ways in which German Idealism impacted nineteenth century French philosophy as well as providing the first ever English language translations of excerpts from the most important philosophical texts of the era Inside volume two readers will find a series of scholarly studies to help them get to grips with this neglected field in the history of ideas The contributors are world leading and emerging experts from Europe UK and North America They highlight the stakes and trace the pathways of this reception for French and German thought during the period including the ways in which French philosophers of the period took up the debates and concepts of German Idealism transformed them or rejected them In this way the volume aims to redress the serious neglect of early

nineteenth century French thought in English language scholarship and in so doing goes beyond a nation based narrative of the history of philosophy Figures covered in the volumes include major philosophers such as Cousin Leroux Proudhon Quinet Ravaissou Renouvier and Vira as well more neglected figures like Barchou de Penho n Bnard Lbre Lerminier Pictet and Willm

Contested Identities Peter Loizos,Eythymios Papataxiarchis,1991-04-21 In this collection leading anthropologists provide a comprehensive yet highly nuanced view of what it means to be a Greek man or woman married or unmarried functioning within a complex society based on kinship ties Exploring the ways in which sexual identity is constructed these authors discuss for example how going out for coffee embodies dominant ideas about female sexuality moral virtue and autonomy why men in a Lesbos village maintain elaborate friendships with nonfamily members while the women do not why young housewives often participate in conflict resolution rituals and how the dominant role of mature married householders is challenged by unmarried persons who emphasize spontaneity and personal autonomy This collection demonstrates that kinship and gender identities in Greece are not unitary and fixed kinship is organized in several highly specific forms and gender identities are plural competing antagonistic and are continually being redefined by contexts and social change
