the American cowboy has long been a favorite subject for novelists filmmakers and illustrators too often the picture they paint bears little relation to reality Philip Ashton Rollins who lived in the West on and off between 1892 and 1924 set out to create a more accurate portrait of this enduring icon Based on what he himself witnessed this fascinating study discusses what exactly makes a cowboy as well as cowboy weaponry clothing saddles and equipment the cowboy character and a cowboy s work In addition Rollins describes the history of ranching in the United States the raising of horses and cattle livestock rustling and more **Ranching under the Arch** D. tale of cattle ranching in southern Alberta focusing on multi generational family owned ranches that are still in existence today In the 1880s a group of fledgling cattle ranchers descended on the plains of southern Alberta They were drawn by the promise of the West where the grass seemed endless and they could ranch under the arch of the Chinook the warm Pacific wind that swooped down the eastern slopes of the Rockies to melt the snow and clear the land for year round grazing They came with wild optimism but their ambition was soon tempered by the brutal reality of a frontier land Ranching under the Arch is a tale of survival perseverance and prosperity in the face of struggle loss and loneliness Following over a dozen ranches still in operation that have roots dating to the late nineteenth century historian D Larraine Andrews recounts the culture that developed around this unique vocation These ranches have endured as vibrant enterprises sometimes into the fifth generation of the same family sometimes with new faces and dreams to change the focus of the narrative Drawing from historical archives diaries and personal accounts and illustrated by informative maps fascinating archival imagery and stunning contemporary photography Ranching under the Arch is an epic portrait of the Cattle Kingdom and its place in Alberta history
