Originating in the sea especially in the waters surrounding the low lying islands of the Maldives *Cypraea moneta* sometimes confused with *Cypraea annulus* was transported to various parts of Afro Eurasia in the prehistoric era and in many cases it was gradually transformed into a form of money in various societies for a long span of time Yang provides a global examination of cowrie money within and beyond Afro Eurasia from the archaeological period to the early twentieth century By focusing on cowrie money in Indian Chinese Southeast Asian and West African societies and shell money in Pacific and North American societies Yang synthesises and illustrates the economic and cultural connections networks and interactions over a longue dur e and in a cross regional context Analysing locally varied experiences of cowrie money from a global perspective Yang argued that cowrie money was the first global money that shaped Afro Eurasian societies both individually and collectively He proposes a paradigm of the cowrie money world that engages local regional transregional and global themes

An Atlas of Cowrie Radulae (Mollusca: Gastropoda: Cypraeoidea: Cypraeidae) Hugh Bradner,1996 The Shell Money of the Slave Trade Jan Hogendorn,Marion Johnson,2003-09-18 A study of the role of cowrie shell money in West African trade particularly the slave trade **A World Transformed** James Walvin,2022-05-17 A comprehensive study of how slavery and enslaved people shaped the modern world A World Transformed explores how slavery thrived at the heart of the entire Western world for more than three centuries Arguing that slavery can be fully understood only by stepping back from traditional national histories this book collects the scattered accounts of the latest modern scholarship into a comprehensive history of slavery and its shaping of the world we know Celebrated historian James Walvin tells a global story that covers everything from the capitalist economy labor and the environment to social culture and ideas of family beauty and taste This book underscores just how thoroughly slavery is responsible for the making of the modern world The enforced transportation and labor of millions of Africans became a massive social and economic force catalyzing the rapid development of multiple new and enormous trading systems with profound global consequences The labor and products of enslaved people changed the consumption habits of millions in India and Asia Europe and Africa in colonized and Indigenous American societies Across time slavery shaped many of the dominant features of Western taste items and habits or rare and costly luxuries some of which might seem at first glance utterly removed from the horrific reality of slavery A World Transformed traces the global impacts of slavery over centuries far beyond legal or historical endpoints confirming that the world created by slave labor lives on today Entangled Lives Joy L. K. Pachuau,Willem van Schendel,2022-11-10 Entangled Lives is a case study in environmental history multispecies history more than human history posthumanism and environmental humanities Its main objective is to foreground that history is co created but that its contours are locally specific Handbook of Key Global Financial Markets, Institutions, and Infrastructure Gerard Caprio,Douglas W. Arner,Thorsten Beck,Charles W. Calomiris,Larry Neal,Nicolas Véron,2012-11-27 This title begins its description of how we created a financially intergrated world by first examining the history of financial globalization from Roman practices and Ottoman finance to Chinese standards the beginnings of corporate practices and the advent of efforts to safeguard financial stability Earth Mother Our Womb of Life Your Brother,2008-04-01 We live in a prophetic time The interpretation of sacred texts private revelations and numerous prophecies all point to our current period as the time of a great world transformation The dreams and visions of some holy men and the prophetic signs now in the world made it clear to them that the end cycle of our World Age had returned To help prepare us for this period holy men from across the Earth have begun restoring the ancient knowledge preserved by their peoples The knowledge in this book restores the hallowed truths of our Mother Earth and our deep rooted connections to Her and prepares us for what some people call Purification Time when knowledge of our Earth Mother and the process progressing us within our Sun System are needed and returned to us It s time to reawaken to how our highest

destinies are tied to our living Mother Earth and to the design in Nature carrying our world to the Paradise spoken of in prophecy down through time The information being restored prepares us for the unexpected events and fateful choices which will soon arise for each of us It also provides us a key to understanding the meaning of many myths legends and world mysteries all of which connect with the end of our Age and the coming of the new heaven upon the Earth Some of the subjects discussed in the book include Mother Earth and Her Sacred Heart Womb The Holy Way we Belong to the Earth The incarnate Earth Heart Christos The Earth s Birth Pains and Hidden Egg Earth become Heaven the Morning Star Creation and Evolution as One Process The Danger of the Forbidden Time Structure Preparing for the changes unto Heaven **China**

marriages and voyages across the vast waters of maritime Asia Transregional and interdisciplinary Discovered but Forgotten reveals how a remote archipelago shaped the vast Chinese empire **World History** Candice Goucher, Linda Walton, 2013-07-24 World History Journeys from Past to Present uses common themes to present an integrated and comprehensive survey of human history from its origins to the present day By weaving together thematic and regional perspectives in coherent chronological narratives Goucher and Walton transform the overwhelming sweep of the human past into a truly global story that is relevant to the contemporary issues of our time Revised and updated throughout the second edition of this innovative textbook combines clear chronological progression with thematically focused chapters In this volume chapters are divided into three parts as follows PART 1 EMERGENCE Human origins to 500 CE PART 2 ORDER 1 CE 1500 CE PART 3 CONNECTIONS 500 1600 CE The expanded new edition features an impressive full color design with a host of illustrations maps and primary source excerpts integrated throughout Chapter opening timelines supply context for the material ahead while end of chapter questions and annotated additional resources provide students with the tools for independent study Each chapter and part boasts introductory and summary essays that guide the reader in comprehending the relevant theme In addition the companion website offers a range of resources including an interactive historical timeline an indispensable study skills section for students tips for teaching and learning thematically and PowerPoint slides lecture material and discussion questions in a password protected area for instructors This textbook provides a basic introduction for all students of World History incorporating thematic perspectives that encourage critical thinking link to globally relevant contemporary issues and stimulate further study **Pelagic Passageways** Rila Mukherjee, 2011 Due to the frontierization of nation states maritime historians have tended to ignore the northern Bay of Bengal Yet this marginal region now dispersed over the four nation states of India China Myanmar and Bangladesh was not marginal in the past Until recently however historians have concentrated largely on the big four the Gujarat Malabar Coromandel and western Bengal coasts Extreme eastern South Asia Bengal and the lands to its north east fanning into Burma and China or modern India's north east and beyond is the focus of Pelagic Passageways This regional unit including diverse topographic features plains forests estuaries deltas rivers mountains lakes plateaus and remote passes oscillates between unity and fragmentation between centrality and marginality in the larger space of the Bay of Bengal To attempt a history of this space is indeed challenging There is not one but two deltas here the western delta corresponding to present West Bengal in India and centred now on Kolkata and the south eastern delta in present Bangladesh centred on Dhaka and running into Arakan Not merely in terms of location but on a historical axis too the two deltas are vastly different as they have followed disparate trajectories dictated in part by their geographies Pelagic Passageways therefore questions the conventional fault line located on the south eastern Bengal delta between the historiography of South and South East Asia Concentrating on commodity and currency flows travel trade routes and interactive networks Pelagic Passageways visualizes the cultural space of the northern Bay of Bengal as embracing

upland landlocked areas Ava Yunnan the Tripuri Dimasa and Ahom states not usually seen as part of maritime history This collection of essays suggests that they too were a part of the social and commercial networks of the Indian Ocean While these countries literally fell off the map this volume proposes that we see these areas instead as crossroads mediating flows between the land dwelling and aquatic worlds

Small Countries Ulf Hannerz, Andre Gingrich, 2017-04-05 What is a small country Is a country small because of the size of its territory or its population Can smallness be relative based on the subjective perception of a country's inhabitants or in comparison with one's neighbors How does smallness however it is defined shape a country and its relations with other countries Answers to these questions among others can be found in *Small Countries* the first and only anthropological study of smallness as a defining variable In terms of population size some two thirds of the countries of the world can now be considered small countries and they can be found in all world regions except North America and East Asia They exhibit great diversity with regard to culture history and institutional arrangements so there can be no model of any typical small country Yet the essays collected by Ulf Hannerz and Andre Gingrich identify a range of family resemblances in such areas as internal connectivity and sensibilities of identity Contributors describe a number of similar problems with which small countries must cope on domestic levels as well as in their transnational and global encounters For some small countries challenges such as media organization and branding have a negative impact on real or perceived vulnerability while for others the same challenges facilitate success stories Comparative case studies cover a diverse set of regions including the Caribbean Middle East Africa and Europe and employ diverse anthropological approaches Tacit assumptions about scale identities and networks in everyday social life are best revealed through close interpretive effort At times a sense of shared belonging comes to the fore with particular events such as a national crisis or an unexpected success in international sports offering scope for situational analyses In showing how small countries confront globalization *Small Countries* reveals how the sense of scale intensifies when the world as a whole shrinks Contributors Regina F Bendix Aleksandar Bo kovi Virginia R Dominguez Thomas Hylland Eriksen Andre Gingrich Beng Lan Goh Ulf Hannerz Sulayman N Khalaf Eva Maria Knoll Jacqueline Kn rr Orvar L fgren Jo o de Pina Cabral Don Robotham Cris Shore Richard Wilk Helena Wulff
