

The background of the cover is a light teal color with soft, white, painterly clouds. Three small, brown, autumnal leaves are scattered across the scene: one in the upper left, one in the upper right, and one in the lower left. At the bottom center, there is a small, stylized illustration of a bird's head, possibly a crow or raven, with its beak open as if calling or singing.

Coyote Sun:

Living the Sky Ray A. Williamson, 1987 Imagine the North American Indians as astronomers carefully watching the heavens charting the sun through the seasons or counting the sunrises between successive lunar phases Then imagine them establishing observational sites and codified systems to pass their knowledge down through the centuries and continually refine it A few years ago such images would have been abruptly dismissed Today we are wiser *Living the Sky* describes the exciting archaeoastronomical discoveries in the United States in recent decades Using history science and direct observation Ray A Williamson transports the reader into the sky world of the Indians We visit the Bighorn Medicine Wheel sit with a Zuni sun priest on the winter solstice join explorers at the rites of the Hopis and the Navajos and trek to Chaco Canyon to make direct on site observations of celestial events

Waiting for Coyote's Call Jerry Wilson, 2008 Inspired by Henry David Thoreau Aldo Leopold and Annie Dillard Jerry Wilson's eco memoir *Waiting for Coyote's Call* covers twenty five years of trying to live life leaving as small an environmental footprint as possible Wilson encourages readers to think about their place in nature through his family's quest to live equably with the natural world on 160 acres of prairie and woodland near the Missouri River in South Dakota Wilson chronicles how he built their eco friendly solar home and set about returning the plowed under prairie to its original state He muses on the difficulties of doing this in the modern world where time is ever more precious and convenience often outweighs the benefits of traditional methods of life Taking the reader on journeys through his Big Woods Wilson examines the wonder of the creatures that also make their home on the North Forty noting how all that life fits together From delight in home grown tomatoes and passing Sandhill cranes to fears about humans interaction with the web of life Wilson's twenty five years on the Missouri River bluff spring off the page mirroring the fawns leaps and bounds viewed from his window

Report of the Bureau of Ethnology to the Secretary of the Smithsonian Institution Smithsonian Institution. Bureau of Ethnology, 1891 *Myths and Tales of the White Mountain Apache* Grenville Goodwin, 1994-03

These 57 tales with seven variants gathered between 1931 and 1936 include major cycles dealing with Creation and Coyote, minor tales and additional stories derived from Spanish and Mexican tradition. The tales are of two classes: holy tales said by some to explain the origin of ceremonies and holy powers and tales which have to do with the creation of the earth, the emergence, the flood, the slaying of monsters and the origin of customs. As Goodwin was the first anthropologist to work with the White Mountain Apache, his insights remain a primary source on this people. *The Crow Indians*, 1983-01-01. For nearly ten years between 1907 and 1931 anthropologist Robert H. Lowie lived among the Crow Indians, listening to the old men and women tell of times gone forever. Lowie learned much about what had been and still was a society remarkable for its variability and cohesion and for its resistance to the encroachments of white civilization. Written with clarity and vigor, Lowie's study makes instantly accessible what had taken him years to discover. He sacrificed neither personal sensitivity nor narrative skill to scientific scruples but brought his scientific work to life. Crow religion, ceremonies, taboos, kinship bonds, tribal organization, division of labor, codes of honor and rites of courtship and wedlock receive their due. *The Crow Indians* is a masterpiece of ethnography, foremost for Lowie's portrayal of the different personalities he encountered. Gray Bull and his marital troubles, the great visionary Medicine Crow, Yellow Brow, the gifted storyteller and many more. *Yurok Myths* Alfred Louis Kroeber, 1978

Kutenai Tales Franz Boas, 1918 *Indian Tales of North America* Tristram Potter Coffin, 2014-11-11. This collection of folktales originally published in 1961 presents stories from a wide range of North American indigenous peoples. The stories are grouped into three categories: The Way the World Is, What Man Must Know and Learn, and The Excitement of Living.

Tsimshian Mythology Franz Boas, 1916 *Navaho Religion* Gladys Amanda Reichard, 2014-07-14. In this in-depth exploration of the symbols found in Navaho legend and ritual, Gladys Reichard discusses the attitude of the tribe members toward their place in the universe, their obligation toward humankind and their gods, and their conception of the supernatural as well as how the Navaho achieve a harmony within their world through symbolic ceremonial practice. The Story of Lynx Claude Lévi-Strauss, 1996-12 In olden days in a village peopled by animal creatures lived Wild Cat another name for Lynx He was old and mangy and he was constantly scratching himself with his cane From time to time a young girl who lived in the same cabin would grab the cane also to scratch herself In vain Wild Cat kept trying to talk her out of it One day the young lady found herself pregnant she gave birth to a boy Coyote another inhabitant of the village became indignant He talked all of the population into going to live elsewhere and abandoning the old Wild Cat his wife and their child to their fate So begins the Nez Percé myth that lies at the heart of The Story of Lynx Claude Lévi-Strauss's most accessible examination of the rich mythology of American Indians In this wide ranging work the master of structural anthropology considers the many variations in a story that occurs in both North and South America but especially among the Salish speaking peoples of the Northwest Coast He also shows how centuries of contact with Europeans have altered the tales Lévi-Strauss focuses on the opposition between Wild Cat and Coyote to explore the meaning and uses of gemellarity or twinness in Native American culture The concept of dual organization that these tales exemplify is one of non equivalence everything has an opposite or other with which it coexists in unstable tension In contrast Lévi-Strauss argues European notions of twinness as in the myth of Castor and Pollux stress the essential sameness of the twins This fundamental cultural difference lay behind the fatal clash of European and Native American peoples The Story of Lynx addresses and clarifies all the major issues that have occupied Lévi-Strauss for decades and is the only one of his books in which he explicitly connects history and structuralism The result is a work that will appeal to those interested in American Indian mythology
