Exhibition catalogue Klaus Bussmann, Heinz Schilling, 1999 **Revolutions in Sovereignty** Daniel Philpott, 2010-07-01

How did the world come to be organized into sovereign states Daniel Philpott argues that two historical revolutions in ideas are responsible First the Protestant Reformation ended medieval Christendom and brought a system of sovereign states in Europe culminating at the Peace of Westphalia in 1648 Second ideas of equality and colonial nationalism brought a sweeping end to colonial empires around 1960 spreading the sovereign states system to the rest of the globe In both cases revolutions in ideas about legitimate political authority profoundly altered the constitution that establishes basic authority in the international system Ideas exercised influence first by shaping popular identities then by exercising social power upon the elites who could bring about new international constitutions Swaths of early modern Europeans for instance arrived at Protestant beliefs then fought against the temporal powers of the Church on behalf of the sovereignty of secular princes who could overthrow the formidable remains of a unified medieval Christendom In the second revolution colonial nationalists domestic opponents of empire and rival superpowers pressured European cabinets to relinquish their colonies in the name of equality and nationalism resulting in a global system of sovereign states Bringing new theoretical and historical depth to the study of international relations Philpott demonstrates that while shifts in military economic and other forms of material power cannot be overlooked only ideas can explain how the world came to be organized into a system of sovereign states

Wilson, 2011-10-15 A deadly continental struggle the Thirty Years War devastated seventeenth century Europe killing nearly a quarter of all Germans and laying waste to towns and countryside alike Peter Wilson offers the first new history in a generation of a horrifying conflict that transformed the map of the modern world When defiant Bohemians tossed the Habsburg emperor's envoys from the castle windows in Prague in 1618 the Holy Roman Empire struck back with a vengeance Bohemia was ravaged by mercenary troops in the first battle of a conflagration that would engulf Europe from Spain to Sweden The sweeping narrative encompasses dramatic events and unforgettable individuals the sack of Magdeburg the Dutch revolt the Swedish militant king Gustavus Adolphus the imperial generals opportunistic Wallenstein and pious Tilly and crafty diplomat Cardinal Richelieu In a major reassessment Wilson argues that religion was not the catalyst but one element in a lethal stew of political social and dynastic forces that fed the conflict By war's end a recognizably modern Europe had been created but at what price The Thirty Years War condemned the Germans to two centuries of internal

division and international impotence and became a benchmark of brutality for centuries As late as the 1960s Germans placed it ahead of both world wars and the Black Death as their country s greatest disaster An understanding of the Thirty Years War is essential to comprehending modern European history Wilson s masterful book will stand as the definitive account of this epic conflict For a map of Central Europe in 1618 referenced on page XVI please visit this book s page on the Harvard University Press website 1648 Klaus Bussmann,Heinz Schilling,1998 1648: War and Peace in Europe.
