1850 A Very Good Year In The Colony Of South Australia:

Servants Depots in Colonial South Australia Marie Ann Steiner, 2009 Marie Steiner's **SERVANTS DEPOTS IN COLONIAL SOUTH AUSTRALIA** is a fascinating account of a little known period in South Australian history. In 1855 the colony of South Australia experienced excessive female immigration with large numbers of single females arriving from the British Isles to work as servants. When an economic downturn led to a shortage of domestic help positions, the Colonial Government was moved to establish servants depots around South Australia to house them. The book details the day to day running of these depots and reveals much about the attitudes towards women in colonial South Australia. **The Australian Horn of Plenty** Reg Hamilton, 2024-06-19 Hamilton explores in a short history how all men gained the vote, self government and the secret ballot in South Australia 1856 Victoria 1857 and New South Wales 1858 Australia permanently democratised without a violent revolution and at a very early time. In 1851 1858 local parliaments in the British colonies of New South Wales Victoria and South Australia gave all men the vote including Aboriginal and Chinese men the secret ballot and self government of local affairs. Britain approved this book examines the parliamentary debate which led to these radical democracies. Debates covered voting eligibility the secret ballot the upper house of parliament equal electorates multiple voting illiterate voters control of Crown lands terms of parliament payment of members and separation of Church and State. British parliamentary tradition was combined with the advanced liberal thinking of the time. Chartism with the British constitution. The democratisation of 1851 1858 in the three largest Australian colonies was as fundamental to Australian prosperity as the mixed market economy. This is a vital text for scholars of democracy as well as those interested in Australian Studies Australian History Political Science Constitutional Law and the building blocks of first world prosperity. Until 1832 the small towns of England were ruled by a curious set of institutions. These included the local Church of England and its vestry and the unelected and self appointing local government. They also had vigorous campaigns for election to the House of Commons and public voting characterised by virulent free speech and the occasional riot. How would these institutions transfer to Britain's colonies? In 1856 the remote colony of South Australia had the secret ballot votes for all adult men and religious freedom and in 1857 self government by an elected parliament. The basic framework of a modern democracy was suddenly established. How did South Australia become so modern so early? How were British institutions radically transformed by British colonists and why did the Colonial Office allow it? Reg Hamilton answers these questions with an amusing history of the curious institutions of unreconstructed Dover before modern democracy in the period 1780 1835 and of the spirited and occasionally shameful conduct of colonists far from home but determined to make their fortune in the distant colony of South Australia. **A Hand-book to the Colony of South Australia**, 1858 **Adelaide, 1836-1976**
