Batavia Jim Edwards, Wynette Edwards, 2000-01-01 Situated directly west of Chicago is Batavia Illinois world famous as the home of Fermilab a center of nuclear research that hosts scientists from all over the world Few people realize that this city has had a long history of leadership in the development of energy resources In Batavia we endeavor to explore that history with a look at power from windmills to power plants Also part of the fabric of Batavia's past are the community leaders who transformed a river village settled in the 1830s into a vibrant and vital modern city You will view a 1910 photographic essay capturing Batavians on the streets of their city discover a unique early high tech company that produced beauty and dietary consumer products in the 1930s and experience an architectural walking tour complete with a map of old Batavia and her famous citizens And to complete our journey through time you will learn how Mary Todd wife of Abraham Lincoln came to live in Batavia

Archaeologies of Sexuality Robert A. Schmidt, Barbara L. Voss, 2005-06-28 Status age and gender have long been accepted aspects of archaeological enquiry yet it is only recently that archaeologists have started seriously to consider the role of sex and sexuality in their studies Archaeologies of Sexuality is a timely and pioneering work It presents a strong diverse body of scholarship which draws on locations as varied as medieval England the ancient Maya kingdoms New Kingdom Egypt prehistoric Europe and convict era Australia demonstrating the challenges and rewards of integrating the study of sex and sexuality within archaeology This volume with contributions by many leading archaeologists will serve both as an essential introduction and a valuable reference tool for students and academics

Magnificent Failure John Martin Campbell, 2008-08-01 Stunning photographic testimony to the hard realities of western farming In words that are as clean and precise as his haunting starkly beautiful photographs John Martin Campbell vividly recreates the life and times of the western homestead era the period from about 1885 when the prairie lands lying west of the longitude of the western Dakotas became available to pioneering farmers More than 70 black and white duotone photographs with detailed captions record bleak landscapes and abandoned farms outbuildings farm

implements and hand tools mute testimonies to the failed hopes of several million families who settled on these arid and semi arid lands Campbell explains how their failure resulted from a deadly combination of natural and economic causes Historians of the western United States have largely ignored the homesteaders despite the lessons their experiences teach about irrigation and dry farming on the northern plains and the impact of the Great Depression and Dust Bowl There is little romance in farming especially when compared with that attached to cowboys Indians and explorers Still the homesteaders were heroes in the opening of the West and this book with its moving text historical introduction and stunning photographs tells their story
