*20th Century Media, 1940s & 50s* Steve Parker, 2002 This is a new series that charts the development of media from newspapers books and magazines right through the invention and popularisation of radio and television up to the electronic age of the internet and e mail The books highlight important turning points in the history of entertainment highlight the types of media commonly available to people across the 20th Century     *1940's and 50's*, 2002 Timeline Rise of youth culture Rock and roll music plays on new youth market Power of television Advent of transistor radios Survival of newspapers and magazines World cinema The record industry Rise of television Cold War     The Power of Art Caroline Campbell, 2024-01-02 An epic work of art history that will transform our understanding of the world by unlocking the human stories behind millennia of art Taking readers from ancient Babylon to contemporary Pyongyang the eminent curator Caroline Campbell explains art s power to illuminate our lives and inspires us to benefit from its transformative and regenerative power Unlike the majority of contemporary art history this book is about much more than the cult of artists personalities Instead each chapter is structured around a city at a particularly vibrant moment in its history describing what propelled its creativity and innovation The emotions and societies she evokes are highly recognizable revealing how great art resonates powerfully by transcending the boundaries of time     The Political Economy of Media and Power Jeffery Klaehn, 2010 The Political Economy of Media and Power is a highly interdisciplinary and innovative edited collection bringing together a diverse range of chapters that address some of the most important issues of our times Contributors cut through media spectacle and make visible the intersections between mass media and the politics of power in the contemporary social world The book is intended to foster critical pedagogy chapters explore ways in which media connect with a broad range of topics and issues including globalization war and terrorism foreign affairs democracy governmental relations the cultural politics of militarization gender inequality and the sexist saturation of the public sphere media representations of women media spin and public relations within the broader context of corporate and ideological power The volume features notable contributors including a preface by Cees Hamelink an introduction by David Miller and William Dinan and chapters from Justin Lewis Robin Andersen Henry Giroux James Winter Robert Jensen Stuart Allan Richard Keeble Yasmin Jiwani David Berry Gerald Sussman and Andrew Mullen     **Empire of Friends** Rachel Applebaum, 2019-04-15 The familiar story of Soviet power in Cold War Eastern Europe focuses on political repression and military force But in *Empire of Friends* Rachel Applebaum shows how the Soviet Union simultaneously promoted a policy of transnational friendship with its Eastern Bloc satellites to create a cohesive socialist world This friendship project resulted in a new type of imperial control based on cross border contacts between ordinary citizens In a new and fascinating story of cultural diplomacy interpersonal relations and the trade of consumer goods Applebaum tracks the rise and fall of the friendship project in Czechoslovakia as the country evolved after World War II from the Soviet Union s most loyal satellite to its most rebellious Throughout Eastern Europe the

friendship project shaped the most intimate aspects of people's lives influencing everything from what they wore to where they traveled to whom they married Applebaum argues that in Czechoslovakia socialist friendship was surprisingly durable capable of surviving the ravages of Stalinism and the Soviet invasion that crushed the 1968 Prague Spring Eventually the project became so successful that it undermined the very alliance it was designed to support as Soviets and Czechoslovaks got to know one another they discovered important cultural and political differences that contradicted propaganda about a cohesive socialist world Empire of Friends reveals that the sphere of everyday life was central to the construction of the transnational socialist system in Eastern Europe and ultimately its collapse *British Power and International Relations during the 1950s* Michael J. Turner, 2009-10-08 This book examines Britain's role and influence in a pivotal decade The postwar international order was still taking shape in the 1950s Much was unsettled and in these circumstances Britain could realistically expect to remain and be treated as one of the Big Three world powers along with the United States and Soviet Union Some adjustments were required in British priorities and methods in view of changing pressures and needs at home and abroad but the continuing desire was to make Britain's position tenable in those parts of the world that were of special importance to British prestige power strategy prosperity and security This book elucidates the motives behind key decisions discusses their far reaching consequences explains why some options were taken and others rejected and places British policy making in the appropriate international context Designed primarily for undergraduate and beginning postgraduate students the book offers an up to date single volume treatment of major themes in British and international history historiographical synthesis and comment detailed narrative accessible easy to follow analysis and a clear evidence based point of view concerning the survival of British power in challenging times *Law & Inequality*, 1988 **Encyclopedia of the Documentary Film 3-Volume Set** Ian Aitken, 2013-10-18 The Encyclopedia of the Documentary Film is a fully international reference work on the history of the documentary film from the Lumière brothers Workers Leaving the Lumière Factory 1885 to Michael Moore's Fahrenheit 9/11 2004 This Encyclopedia provides a resource that critically analyzes that history in all its aspects Not only does this Encyclopedia examine individual films and the careers of individual film makers it also provides overview articles of national and regional documentary film history It explains concepts and themes in the study of documentary film the techniques used in making films and the institutions that support their production appreciation and preservation *From Whitney to Chomsky* John Earl Joseph, 2002-01-01 What is American about American linguistics Is Jakobson who spent half his life in America part of it What became of Whitney's genuinely American conception of language as a democracy And how did developments in 20th century American linguistics relate to broader cultural trends This book brings together 15 years of research by John E Joseph including his discovery of the meeting between Whitney and Saussure his ground breaking work on the origins of the Sapir-Whorf Hypothesis and of American sociolinguistics and his seminal examination of Bloomfield and Chomsky as readers of Saussure Among the original findings and arguments contained herein

why American structuralism does not end with Chomsky but begins with him how Bloomfield managed to read Saussure as a behaviourist avant la lettre why in the long run Skinner has emerged victorious over Chomsky how Whorf was directly influenced by the mystical writings of Madame Blavatsky how the Whitney Max Miller debates in the 19th century connect to the intellectual disparity between Chomsky's linguistic and political writings

**Power Transition in the Anarchical Society** Tonny Brems Knudsen, Cornelia Navari, 2022-07-09 This book examines the ongoing power transition and its ramifications for world order from an international society perspective In that perspective the outcome of big changes in the distribution of power is a matter of socialization rather than structural determination or the resilience of the so called Liberal world order Consequently the key question of this book is how the ongoing power transition affects and is affected by the social institutions of world order including sovereignty the balance of power international law diplomacy trade humanitarian intervention national self determination and environmental stewardship The guiding theoretical assumption of the book is that power transition stimulates fundamental institutional change rather than major conflict or a breakdown of international order while international organizations are key arenas for the realization and negotiation of such changes not the victims of hegemonic retreat The argument is pursued in sections on rising and declining powers Anglo America Russia China and the EU among others consequences for the fundamental social institutions and changes in international organizations globally and regionally In combination the chapters reveal the contours of the coming world order

**Myths of Demilitarization in Postrevolutionary Mexico, 1920-1960** Thomas Rath, 2013-04-22 At the end of the Mexican Revolution in 1920 Mexico's large rebellious army dominated national politics By the 1940s Mexico's Institutional Revolutionary Party PRI was led by a civilian president and claimed to have depoliticized the army and achieved the bloodless pacification of the Mexican countryside through land reform schooling and indigenismo However historian Thomas Rath argues Mexico's celebrated demilitarization was more protracted conflict ridden and incomplete than most accounts assume Civilian governments deployed troops as a police force often aimed at political suppression while officers meddled in provincial politics engaged in corruption and crafted official history all against a backdrop of sustained popular protest and debate Using newly available materials from military intelligence and diplomatic

archives Rath weaves together an analysis of national and regional politics military education conscription veteran policy and popular protest In doing so he challenges dominant interpretations of successful top down demilitarization and questions the image of the post 1940 PRI regime as strong stable and legitimate Rath also shows how the army s suppression of students and guerrillas in the 1960s and 1970s and the more recent militarization of policing have long roots in Mexican history
