## 1945 Year Zero:

**Year Zero** Ian Buruma, 2013-10-03 Many books have been written and continue to be written about the Second World War military histories histories of the Holocaust the war in Asia or collaboration and resistance in Europe Few books have taken a close look at the immediate aftermath of the worldwide catastrophe Drawing on hundreds of eye witness accounts and personal stories this sweeping book examines the seven months in Europe and four months in Asia that followed the surrender of the Axis powers from the fate of Holocaust survivors liberated from the concentration camps and the formation of the state of Israel to the incipient civil war in China and the allied occupation of Japan It was a time when terrible revenge was taken on collaborators and their former masters of ubiquitous black markets war crime tribunals and the servicing of millions of occupation troops former foes in some places liberators in others But Year Zero is not just a story of vengeance It was also a new beginning of democratic restorations in Japan and West Germany of social democracy in Britain and of a new world order under the United Nations If construction follows destruction Year Zero describes that extraordinary moment in between when people faced the wreckage full of despair as well as great hope An old world had been destroyed a new one was yet to be built

**1945, Year Zero** John Lukacs, 1978 Regeringschefer pr sidenter Krigsafslutning 1945 **Air University Review**, 1979-11 **Victory in Europe, 1945** Arnold A. Offner, Theodore A. Wilson, 2000 In this collection senior scholars explore the transition from war to uneasy peace how and why the war ended as it did whether a different resolution was possible and if the ensuing Cold War was inevitable The War Against the Past Frank Furedi, 2024-08-20 A war is being waged against the Past Whether it's toppling statues decolonising the curriculum or erasing terms from our vocabulary a cultural crusade is underway designed to render the past toxic It is condemned as enemy territory and has become the target of venomous hate What is at stake in provoking such a strong sense of societal shame towards Western history In this book Frank Furedi mounts a fierce defence of the past and calls for a fight back against the delegitimization of its ideals and accomplishments Casting the past as a story of shame has become a taken for granted outlook permeating the educational and cultural life of western society from the top down Its advocates may see it as a cultural imperative but a society that loses touch with its past will face a permanent crisis of identity Squandering the wisdom provided by our historical inheritance means betraying humanity's positive achievements Challenging this great betrayal Furedi argues is one of the most important battles of our time

**God & Government** Charles Colson, 2010-10-05 How should Christians live their faith in the public arena Twenty years ago the first edition of Chuck Colson's Kingdoms in Conflict became a bestseller a must read for people interested in politics and the relationship between church and state Now with a passion for truth and moved by the urgency of the times we live in Colson has written God and Government re voicing his powerful and enduring message for our post 9 11 world In an era when Christianity is being attacked from every side books being written charging Christians with being theocrats and trying to impose their views on an unwilling culture what is the message of the Christian

church What does the Bible say and what do we learn from history about the proper relationship between faith and culture Appealing to scripture reason and history this book tackles society's most pressing and divisive issues New stories and examples reflect the realities of today from the clash with radical Islam to the deep division between reds and blues In an era of angry finger pointing Colson furnishes a unique insider's perspective that can't be pigeonholed as either religious right or religious left Whatever your political or religious stance this book will give you a different understanding of Christianity If you're a Christian it will help you to both examine and defend your faith If you've been critical of the new religious right you'll be shocked at what you learn Probing both secular and religious values God and Government critiques each fairly sides with neither and offers a hopeful fair minded perspective that is sorely needed in today's hyper charged atmosphere

**Themes in Modern European History Since 1945** Rosemary Wakeman,2003-06-26 Twelve chapters consider the key political cultural and economic changes of post 1945 Europe **Transatlantic Antifascisms** Michael Seidman,2018 The first comprehensive scholarly account of antifascism analysing its development in Spain France Britain and the USA

*British Submarines in the Cold War Era* Norman Friedman,2020-09-30 The first comprehensive technical history on the subject with photos A must read for all professionals designers and scholars of modern submarines Australian Naval Institute The Royal Navy's greatest contribution to the Allied success in World War II was undoubtedly the defeat of the U boat menace in the North Atlantic a victory on which all other European campaigns depended The underwater threat was the most serious naval challenge of the war so it was not surprising that captured German submarine technology became the focus of attention for the British submarine service after 1945 It was quick to test and adopt the schnorkel streamlining homing torpedoes and less successfully hydrogen peroxide propulsion Furthermore in the course of the long Atlantic battle the Royal Navy had become the world's most effective anti submarine force and was able to utilize this expertise to improve the efficiency of its own submarines However in 1945 German submarine technology had also fallen into the hands of the Soviet Union and as the Cold War developed it became clear that a growing Russian submarine fleet would pose a new threat Britain had to go to the US for its first nuclear propulsion technology but the Royal Navy introduced the silencing technique that made British and US nuclear submarines viable anti submarine assets and it pioneered in the use of passive silent sonars in that role Nuclear power also changed the role of some British submarines which replaced bombers as the core element of British Cold War and post Cold War nuclear deterrence As in other books in this series this one shows how a combination of evolving strategic and tactical requirements and new technology produced successive types of submarines It is based largely on unpublished and previously classified official documentation and to the extent allowed by security restrictions also tells the operational story HMS Conqueror is still the only nuclear submarine to have sunk a warship in combat but there are many lesser known aspects of British submarine operations in the postwar era **Forging Europe: Industrial**

**Organisation in France, 1940-1952** Luc-André Brunet,2017-06-08 This book is a detailed and original look at the radical

reorganisation of French heavy industry in the turbulent period between the establishment of the Vichy regime in 1940 and the creation of the European Coal and Steel Community ECSC the forerunner to the European Union in 1952 By studying institutions ranging from Vichy's Organisation Committees to Jean Monnet's Commissariat G n ral du Plan CGP Luc Andr Brunet challenges existing narratives and reveals significant continuities from Vichy to post war initiatives such as the Monnet Plan and the ECSC Based on extensive multi archival research this book sheds important new light on economic collaboration and resistance in Vichy the post war revival of the French economy and the origins of European integration

**Modern Age** ,1985 *British Academy Lectures 2014-15* Janet Carsten,Simon Frith,2016-02-04 British Academy lectures have previously been published in the Proceedings of the British Academy Lectures are now made available in the new open access Journal of the British Academy But they will also be printed in an annual volume This volume publishes lectures from the 2014 and 2015 programmes which were posted to the Journal in 2015 **Against Redemption** Franco Baldasso,2022-12-06 WINNER HELEN AND HOWARD R MARRARO PRIZE IN ITALIAN HISTORY Discloses the richness of ideas and sheds light on the controversy that characterized the transition from fascism to democracy examining authors works and memories that were subsequently silenced by Cold War politics How a shared memory of Fascism and its cultural heritage took shape is still today the most disputed question of modern Italy crossing the boundaries between academic and public discourse Against Redemption concentrates on the historical period in which disagreement was at its highest the transition between the downfall of Mussolini in July 1943 and the victory of the Christian Democrats over the Left in the 1948 general elections By dispelling the silence around the range of opinion in the years before the ideological struggle fossilized into Cold War oppositions this book points to early postwar literary practices as the main vehicle for intellectual dissent shedding new light on the role of cultural policies in institutionalizing collective memory During Italy's transition to democracy competing narratives over the recent traumatic past emerged and crystallized depicting the country's break with Mussolini's regime as a political and personal redemption from its politics of exclusion and unrestrained use of violence Conversely outstanding authors such as Elsa Morante Carlo Levi Alberto Moravia and Curzio Malaparte in close dialogue with remarkable but now neglected figures stressed the cultural continuity between the new democracy and Fascism igniting heated debates from opposite political standpoints Their works addressed questions such as the working through of national defeat Italian responsibility in World War II and the Holocaust revealing how the social racial and gender biases that characterized Fascism survived after its demise and haunted the newborn democracy **The Unexamined Orwell** John Rodden,2012-08-17 A reflection on Orwell as idea that outlines some of the misconceptions and misuses of the Orwell name Modern Fiction Studies The year 1984 is just a memory but the catchwords of George Orwell's novel Nineteen Eighty Four still routinely pepper public discussions of topics ranging from government surveillance and privacy invasion to language corruption and bureaucratism Orwell's work pervades the cultural imagination while others of his literary generation are

long forgotten Exploring this astonishing afterlife has become the scholarly vocation of John Rodden who is now the leading authority on the reception impact and reinvention of George Orwell the man and writer as well as of Orwell the cultural icon and historical talisman In *The Unexamined Orwell* Rodden delves into dimensions of Orwell's life and legacy that have escaped the critical glare He discusses how several leading American intellectuals have earned the title of Orwell's successor including Lionel Trilling Dwight Macdonald Irving Howe Christopher Hitchens and John Lukacs He then turns to Germany and focuses on the role and relevance of Nineteen Eighty Four in the now defunct communist nation of East Germany Rodden also addresses myths that have grown up around Orwell's life including his more than half legendary encounter with Ernest Hemingway in liberated Paris in March 1945 and analyzes literary issues such as his utopian sensibility and his prose style Finally Rodden poses the endlessly debated question What would George Orwell do and speculates about how the prophet of Nineteen Eighty Four would have reacted to world events In so doing Rodden shows how our responses to this question reveal much about our culture's ongoing need to reappropriate Orwell

*Historical Atlas of the Third Reich* Richard Overly, 2025-09-16 Formally inaugurated in Potsdam in 1933 the Third Reich was regarded by Hitler as the greatest in a line of might German empires His mystical belief that this empire would last a thousand years proved unfounded but not before a world war which resulted in the loss of at least 70 million lives This atlas charts the rise and fall of Hitler's Nazi state from the first mass meeting of the NSDAP in Munich in 1920 through the relentless territorial aggression and anti-Jewish atrocities of World War II to the execution of war criminals in Nuremberg in 1946 The *Historical Atlas of the Third Reich* offers penetrating insights into the seemingly inexorable rise of National Socialism and examines the nature of Hitler's power structures both within his party and within Germany as a whole

*At the End of an Age* John Lukacs, 2003-09-10 *At the End of an Age* is a deeply informed and rewarding reflection on the nature of historical and scientific knowledge Of extraordinary philosophical religious and historical scope it is the product of a great historian's lifetime of thought on the subject of his discipline and the human condition While running counter to most of the accepted ideas and doctrines of our time it offers a compelling framework for understanding history science and man's capacity for self knowledge In this work John Lukacs describes how we in the Western world have now been living through the ending of an entire historical age that began in Western Europe about five hundred years ago Unlike people during the ending of the Middle Ages or the Roman empire we can know where we are But how and what is it that we know In John Lukacs's view there is no science apart from scientists and all of Science including our view of the universe is a human creation imagined and defined by fallible human beings in a historical continuum This radical and reactionary assertion in its way a summa of the author's thinking expressed here and there in many of his previous twenty odd books leads to his fundamental assertion that contrary to all existing cosmological doctrines and theories it is this earth which is the very center of the universe the only universe we know and can know
