1950s Plastics Design Everyday Elegance:

Everyday Elegance Holly Wahlberg, 1994 1950s Plastics Design Holly Wahlberg, 1999-01 This newly revised book presents a factual discussion of the wide variety of colorful and popular plastics housewares made between 1945 and 1960. Wonderful advertisements that announced to the world what new designs were possible with this experimental material are shown. Many color photographs of today's highly collectible plastics objects demonstrate the variety of colors and useful forms that were manufactured. Vinyl, Lucite, Melamine, and Formica to name a few have become common household names since their introduction in this era. Here are chairs, tables, dishes, cups, radios, lampshades, draperies, cooking containers, car interiors, floors, and more, all made of plastics. A very useful Collectors Guide providing information about all the major manufacturers and trade names is organized by product types for easy reference. For 1950s families with small budgets and small homes, the magic of plastics chemistry promised unprecedented practical benefits mingled with the glamour and drama of sleek modern forms. At last, plastics had stepped out of the kitchen and bath to enter almost every area of home design. In a single decade, plastics had won favor among an astonishingly diverse group from dime-store shoppers and young marrieds to gifted designers and prestigious proponents of affordable good design. In tracing plastic's whirlwind rise from wartime sham to postwar miracle, this book explores not only the history of an important segment of 1950s collectibles but also the history of a culture redefining its way of life.

Everyday Elegance Holly Wahlberg, 1994 **Plastics Design Handbook** Marlene G. Rosato, D.V. Rosato, 2013-11-27 This book provides a simplified and practical approach to designing with plastics that fundamentally relates to the load, temperature, time, and environment subjected to a product. It will provide the basic behaviors in what to consider when designing plastic products to meet performance and cost requirements. Important aspects are presented such as understanding the advantages of different shapes and how they influence designs. Information is concise, comprehensive, and practical. Review includes designing with plastics based on material and process behaviors. As designing with any materials, plastic, steel, aluminum, wood, etc., it is important to know their behaviors in order to maximize product performance to cost efficiency. Examples of many different designed products are reviewed. They range from toys to medical devices to cars to boats to underwater devices to containers to springs to pipes to buildings to aircraft to spacecraft. The reader's product to be designed can directly or indirectly be related to product design reviews in the book. Important are behaviors associated and interrelated with plastic materials: thermoplastics, thermosets, elastomers, reinforced plastics, etc., and fabricating processes: extrusion, injection molding, blow molding, forming, foaming, rotational molding, etc. They are presented so that the technical or non-technical reader can readily understand the interrelationships.

Plastics Institute of America Plastics Engineering, Manufacturing & Data Handbook D.V. Rosato, Nick R. Schott, Marlene G. Rosato, 2001-11-30 This book provides a simplified practical and innovative approach to understanding the design and manufacture of plastic products in the World of Plastics. The concise and comprehensive information defines and focuses on

past current and future technical trends The handbook reviews over 20 000 different subjects and contains over 1 000 figures and more than 400 tables Various plastic materials and their behavior patterns are reviewed Examples are provided of different plastic products and relating to them critical factors that range from meeting performance requirements in different environments to reducing costs and targeting for zero defects This book provides the reader with useful pertinent information readily available as summarized in the Table of Contents List of References and the Index
