*1969 Yearbook of the International Folk Music Council* International Folk Music Council, Alexander Lothar Ringer, 1971

Yearbook of the International Folk Music Council 1969 Alexander L. Ringer (ed.), 1971 Music, Culture, and Experience John Blacking, 1995-03-15 One of the most important ethnomusicologists of the century John Blacking achieved international recognition for his book *How Musical Is Man* known for his interest in the relationship of music to biology psychology dance and politics Blacking was deeply committed to the idea that music making is a fundamental and universal attribute of the human species He attempted to document the ways in which music making expresses the human condition how it transcends social divisions and how it can be used to improve the quality of human life This volume brings together in one convenient source eight of Blacking's most important theoretical papers along with an extensive introduction by the editor Drawing heavily on his fieldwork among the Venda people of South Africa these essays reveal his most important theoretical themes such as the innateness of musical ability the properties of music as a symbolic or quasi linguistic system the complex relation between music and social institutions and the relation between scientific musical analysis and cultural understanding

**The Study of Folk Music in the Modern World** Philip V. Bohlman, 1988-06-22 This book is a contribution of considerable substance because it takes a holistic view of the field of folk music and the scholarship that has dealt with it Bruno Nettl a praiseworthy combination of solid scholarship penetrating discussion and global relevance *Asian Folklore Studies* successfully ties the history and development of folk music scholarship with contemporary concepts issues and shifts and which treats varied folk musics of the world cultures within the rubric of folklore and ethnomusicology with subtle generalizations making sense to serious minds *Folklore Forum* this book challenges many carefully nurtured sacred cows Bohlman has executed an intellectual challenge of major significance by successfully organizing a welter of unruly data and ideas into a single appropriately complex but coherent system *Folk Music Journal* Bohlman examines folk music as a genre of folklore from a broadly cross cultural perspective and espouses a more expansive view of folk music stressing its vitality in non Western cultures as well as Western in the present as well as the past

**A History of European Folk Music** Jan Ling, 1997 The aim of this study is to increase understanding of folk music within an historical European framework and to show the genre as a dynamic and changing art form The book addresses a plethora of questions through its detailed examination of a wide range of music from vastly different national and cultural identities It attempts to elucidate the connections between and the varying development of the music of peoples throughout Europe firstly by examining the ways in which scholars of different ideological and artistic ambitions have collected studied and performed folk music then by investigating the relationship between folk and popular music Jan Ling is Professor of Musicology at Göteborg University Sweden

*Nettl's Elephant* Bruno Nettl, 2010-08-30 Surveying the field he helped establish Bruno Nettl investigates how concepts such as evolution geography and history serve as catalysts for advancing ethnomusicological methods and

perspectives Nettl moves from reflections on the history of ethnomusicology to evaluations of the principal organizations in the field interspersing those broader discussions with shorter essays focusing on neglected literature and personal experiences from publisher description **The Garland Encyclopedia of World Music** Ruth M. Stone,2017-09-25

Ann E. Lucas,2019-10-22 A free open access ebook is available upon publication Learn more at [www.luminosoa.org](http://www.luminosoa.org) Iran s particular system of traditional Persian art music has been long treated as the product of an ever evolving ancient Persian culture In Music of a Thousand Years Ann E Lucas argues that this music is a modern phenomenon indelibly tied to changing notions of Iran s national history Rather than considering a single Persian music history Lucas demonstrates cultural dissimilarity and discontinuity over time bringing to light two different notions of music making in relation to premodern and modern musical norms An important corrective to the history of Persian music Music of a Thousand Years is the first work to align understandings of Middle Eastern music history with current understandings of the region s political history **City**

**Folk** Daniel J. Walkowitz,2013-07-22 This is the story of English Country Dance from its 18th century roots in the English cities and countryside to its transatlantic leap to the U S in the 20th century told by not only a renowned historian but also a folk dancer who has both immersed himself in the rich history of the folk tradition and rehearsed its steps In City Folk Daniel J Walkowitz argues that the history of country and folk dancing in America is deeply intermeshed with that of political liberalism and the old left He situates folk dancing within surprisingly diverse contexts from progressive era reform and playground and school movements to the changes in consumer culture and the project of a modernizing cosmopolitan middle class society Tracing the spread of folk dancing with particular emphases on English Country Dance International Folk Dance and Contra Walkowitz connects the history of folk dance to social and international political influences in America Through archival research oral histories and ethnography of dance communities City Folk allows dancers and dancing bodies to speak From the norms of the first half of the century marked strongly by Anglo Saxon traditions to the Cold War nationalism of the post war era and finally on to the counterculture movements of the 1970s City Folk injects the riveting history of folk dance in the middle of the story of modern America **Shadows in the Field** Gregory F. Barz,Timothy J. Cooley,2008-09-09

Shadows in the Field was the first book by ethnomusicologists to consider fieldwork as an issue laden practice rather than as a methodology requiring a prescriptive manual. The authors in this revised second edition challenge the very notion of fieldwork: its goals, the nature of knowledge gained in fieldwork, and the place of fieldwork in historical studies. *Shadows in the Field* proposes new perspectives on fieldwork for all ethnographic driven disciplines such as ethnomusicology, anthropology, sociology, folklore area studies, and linguistics.

**Folksongs and Folk Revival** Anna Kearney Guigné, 2008. In 1965 the classically trained musician and composer Kenneth Peacock published a three volume work *Songs of the Newfoundland Outports* based on six years of collecting folksongs in that province on behalf of the National Museum of Canada. *Folksongs and Folk Revival* provides a critical review of Peacock's Newfoundland fieldwork to better understand his motivations for creating *Outports* and his treatment of the materials he collected. The study considers the cultural politics of the day, such as National Museum policies and directions, and in particular how the growth of the Canadian folk revival during the 1950s and 1960s influenced his work. It considers the dynamic relations between Peacock and other individuals who had a vested interest in documenting and presenting Newfoundland culture. New knowledge regarding Peacock's life and times facilitates our understanding of this man's immense contribution to both Newfoundland and Canadian folklore scholarship while at the same time allowing researchers to make greater use of the materials he so diligently collected.
