

Read and annotate the following prompt, then brainstorm how you would create your argument for this essay.

- **PROMPT:** In his 1985 essay "Being a Man," Paul Theroux argues that "The whole idea of manhood in America is pitiful...Even the expression "Be a man!" ...[is] insulting and abusive. It means: Be stupid, be unfeeling, obedient, soldierly and stop thinking...It is a hideous and crippling lie; it not only insists on difference and connives at superiority, it is also by its very nature destructive--emotionally damaging and socially harmful."
- Write an essay that defends, challenges, or qualifies Theroux's claims about the harmful nature of "manhood in America." Support your argument with appropriate evidence from your reading, observation, or experience.

1985 An Argument For Man:

The Forgotten Realities of Men Marc Lafrance, Jean-Martin Deslauriers, Gilles Tremblay, Pauline Hoebanx, 2025-05-15

The Forgotten Realities of Men explores the complexities of contemporary masculinity providing an empathetic look at men's lives while rejecting the politics of anger and resentment that often pit their challenges against those of women. Through in-depth research, ethnographic analysis, and interviews with men themselves, the contributors shed light on aspects of men's lived experiences that tend to be downplayed or overlooked: childhood sexual abuse, family violence, teenaged fatherhood, infertility, emotional expression, isolation, and depression. Cultures of fear in sports and controversial online communities. The Forgotten Realities of Men foregrounds the diverse circumstances characterizing men's lives and illuminates their impact on physical and mental health, family dynamics, professional responsibilities, intimate relationships, and personal identity. By fostering respectful debate, this compassionate collection serves as a call for solutions to many pressing issues facing men today.

Acting Emotions Elly Konijn, 2000. Actors and actresses play characters such as the embittered Medea or the lovelorn Romeo or the grieving and tearful Hecabe. The theatre audience holds its breath and then sparks begin to fly. But what about the actor? Has he been affected by the emotions of the character he is playing? What's going on inside his mind? The styling of emotions in the theatre has been the subject of heated debate for centuries. In fact, Diderot in his *Paradoxe sur le comédien* insisted that most brilliant actors do not feel anything onstage. This greatly resembles the detached acting style associated with Bertolt Brecht, which in turn stands in direct opposition to the notion of the empathy-oriented emotional reality of the actor, which is most famously associated with the American acting style known as method acting. The book's survey of the various dominant acting styles is followed by an analysis of the current state of affairs regarding the psychology

of emotions By uniting the psychology of emotions with contemporary acting theories the author is able to come to the conclusion that traditional acting theories are no longer valid for today's actor Acting Emotions throws new light on the age old issue of double consciousness the paradox of the actor who must nightly express emotions while creating the illusion of spontaneity In addition the book bridges the gap between theory and practice by virtue of the author's large scale field study of the emotions of professional actors In Acting Emotions the responses of Dutch and Flemish actors is further supplemented by the responses of a good number of American actors The book offers a unique view of how actors act out emotions and how this acting out is intimately linked to the development of contemporary theatre **God and the Chip** William A.

RECEPTION OF TOULMIN'S BOOK As Toulmin himself notes in his essay in this volume which was delivered as an address in 2005 his fellow philosophers were initially hostile to the ideas in his book They were taken up however by specialists in fields like jurisprudence and psychology who found that they fit the forms of argument and reasoning that they were studying And Toulmin's model was embraced by the field of speech communication in the United States whose textbooks on argumentation now include an obligatory chapter on the Toulmin model of micro arguments Philosophising Experiences

Dialog Theory for Critical Argumentation Douglas N. Walton,2007 Because of the need to devise systems for electronic communication on the internet multi agent computing is moving to a model of communication as a structured conversation between rational agents For example in multi agent systems an electronic agent searches around the internet and collects certain kinds of information by asking questions to other agents Such agents also reason with each other when they engage in negotiation and persuasion It is shown in this book that critical argumentation is best represented in this framework by the model of reasoned argument called a dialog in which two or more parties engage in a polite and orderly exchange with each other according to rules governed by conversation policies In such dialog argumentation the two parties reason together by taking turns asking questions offering replies and offering reasons to support a claim They try to settle their disagreements by an orderly conversational exchange that is partly adversarial and partly collaborative
