The European Automobile Industry William A. Maloney, Andrew McLaughlin, 2005-07-08 This book presents an analysis of some of the changes that have transformed the automobile industry in the last thirty years illustrating some of the most significant consequences of globalization Focusing on the response of Europe's policy makers it analyzes government industry relations at both national and transnational levels demonstrating how national policy instruments have been eroded by regional political and economic integration There has been a significant and irreversible shift in the locus of decision making power from nation states to the regional level in the automobile sector

Europe and America John Peterson, 2002-09-11 The conflict in Bosnia disputes within the new World Trade Organization and debates about NATO enlargement all illustrate a single point no relationship is more important in determining the state of international relations than the alliance between Europe and America Contrary to accepted wisdom John Peterson argues that the end of the Cold War actually enhances the prospects for partnership between the United States and the European Union Completely updated this book offers a clear and penetrating analysis of the problems and opportunities facing the transatlantic alliance

Beyond the Market David Hine, Hussein Kassim, 2005-08-04 *Beyond the Market* The European Union and National Social Policy considers the extent to which the European Union has impacted on

the formation and content of social and environmental policy in the member states focusing on the four larger members Germany France the UK and Italy The contributors use theory and empirical evidence to highlight the factors that influence the formation and content of social policy and why some states have been able to resist EU social policy initiatives successfully and maintain their autonomy

European Integration and Health Policy Panos Minogiannis, 2003-01-01 The impact of European integration on diverse national social policies is still largely unknown While policy decision making remains at the country level there is a strong possibility that indirectly as a result of ideological imperatives and financial constraints policies will change National health policy is a case in point This important volume explores the current and probable effect of European integration on health care protection Will it tend to encourage all European member states to provide equitable and universal access to quality care Or is the European integration process likely to lead to social exclusion of some The high degree of social welfare as a health expectancy holds great significance for decisions in countries like the United States facing similar pressures for expanded coverage In answering these questions Panos Minogiannis examines policies in Greece France Germany and the Netherlands Minogiannis frames his argument through an exploration of the history of the institutionalization of health care Chapter 1 explores the nature of challenges that health care faces in an era of integration and the ways in which these challenges have emerged Chapter 2 discusses centralization of governance in Brussels describing the structure and relations of different European Union institutions and their interactions with member states The final portions of the book through case studies of the Dutch French German and Greek health reforms explore the history of the political development of health care institutions with a particular interest in reform proposals in the last fifteen years Chapter 7 brings together lessons from previous chapters and discusses the dynamics of health policy making in the European Union Minogiannis concludes that health insurance will most likely remain at the member state level as far as politics are concerned at least for the present although policy makers will most likely have to deal with the issue of cross border health more comprehensively than in the past Those interested in comparative policy and in particular health care policy will find this volume highly informative reading Those interested in the impact of European integration will find it provocative Panos Minogiannis is with the Mailman School of Public Health at Columbia University and is a research associate at the Eisenhower Center
