Bremmer, 1998 This is the first modern collection of studies on the most important aspects of the Acts of Peter the source of the famous novel *Quo Vadis* by Henry Sienkiewicz The collection of essays discusses many aspects of the Acts of Peter its relationship with the Acts of John and the Acts of Paul but also important themes such as the fascinating figure of Simon the Magician Agrippa and his concubines It looks at the nature of the theos aner the role of women the place of magic the performance of miracles the famous death of Peter upside down the *regulae fidei* and other early credal formulations Finally it discusses the transmission and Latinity of the Acts and the date and place of its publication      Q Harry T. Fleddermann, 2005 The last fifty years have witnessed a remarkable renaissance in Q studies with scholars probing every aspect of the Q hypothesis from the existence and extent of Q to the reconstruction of the original text and the place of the document in the history of early Christianity The time seems ripe for a major commentary on Q to consolidate and extend the discussion of this important document that Matthew and Luke incorporated into their gospels Q A Reconstruction and Commentary contains an argued reconstruction of the original Greek text of Q and a commentary on the reconstructed text along with an introduction that explores all of the main questions that swirl around the Q hypothesis      **First International Congress on Adhesion Science And Technology---invited Papers** W. Hogeveen, 2023-08-28 Worldwide mastitis is still one of the most important diseases in the dairy sector Being a multifactorial disease caused by multiple pathogens control remains a difficult issue Mastitis not only affects the health of milk producing animals having consequences for the profitability of dairy farms it also affects the animal welfare Moreover mastitis negatively influences the milk quality having consequences for the dairy processing industry In other words mastitis affects a large part of the dairy production chain Due to ongoing scientific effort insight in mastitis in the context of increasingly complex farming systems is improving This insight leads to better methods to control mastitis either by

prevention or by adequate measures e.g. therapy when a cow or goat or sheep gets mastitis. This book reflects the current knowledge from all over the world on mastitis as it was presented during the 4th IDF International Mastitis Conference held in June 2005 in Maastricht, the Netherlands. The papers of the 115 oral presentations and the 13 keynote presentations are reflecting not only the current knowledge of mastitis control but are also giving ideas for future solutions for control measures.

**Reading the Human Body** Mladen Popović, 2007-07-30. This study deals with physiognomic and astrological texts from the Dead Sea Scrolls that represent one of the earliest examples of ancient Jewish science. For the first time the Hebrew physiognomic astrological list 4Q186 4QZodiacal Physiognomy and the Aramaic physiognomic list 4Q561 4QPhysiognomy are comprehensively studied in relation to both physiognomic and astrological writings from Babylonian and Greco-Roman traditions. New reconstructions and interpretations of these learned lists are offered that result in a fresh view of their sense function and status within both the Qumran community and Second Temple Judaism at large, showing that Jewish culture in Palestine participated in the cultural exchange of learned knowledge between Babylonian and Greco-Roman cultures.

**Resources in Education**, 1998. **The Acts of the Apostles** Ben Witherington, 1998. This groundbreaking commentary is the first to provide a detailed social and rhetorical analysis of the book of Acts. At the same time it gives detailed attention to major theological and historical issues.

**Conflicted Boundaries in Wisdom and Apocalypticism** Lawrence Mitchell Wills, Benjamin G. Wright, 2005. The notion that wisdom and apocalypticism represent fundamentally different and mutually exclusive categories of genre and worldview in early Jewish and Christian literature persists in current scholarship. The essays in this volume, the work of the Wisdom and Apocalypticism Group of the Society of Biblical Literature, challenge that generally held view as they explore the social locations and scholarly constructions of these literatures and discover an ancient reality of more porous categories and complex interrelationships. The volume draws on a broad range of Jewish and Christian texts including 1 Enoch, Sirach, 4QInstruction, Psalms of Solomon, James, Revelation, and Barnabas. From publisher's description.

**The Sea Peoples and Their World** Eliezer D. Oren, 2013-10-09. This volume presents the results of the 1995 international seminar on the history and archaeology of the Sea Peoples. The 17 comprehensive articles written by leading scholars in the fields of Egyptology, Hittitology, biblical studies, and Aegean, Anatolian, and Near Eastern archaeology examine current methodologies and interpretations concerning the origin, migration, and settlement of the Sea Peoples against the overwhelming new archaeological record from sites throughout the Mediterranean basin and the Levant. Symposium Series 11, University Museum Monograph 108.

**Literary Studies in Luke-Acts** Joseph B. Tyson, 1998. Literary Studies in Luke-Acts is a collection of essays by a group of distinguished biblical scholars who use literary critical analyses in the study of Luke-Acts. The variety of literary critical approaches to Luke-Acts as compiled uniquely in this volume provides a needed resource by presenting methodological options for approaching biblical narrative texts with literary questions and considerations. Porter, 2010-12-24 A hundred years after A Schweitzer s Von Reimarus zu Wrede the study of the historical Jesus is again experiencing a renaissance Ongoing since the beginning of the 1980 s this renaissance has produced an abundance of Jesus studies that also display a welcome diversity of methods approaches and hypotheses The Handbook of the Study of the Historical Jesus is designed to handle this diversity and abundance Drawing

from first class scholarship throughout the world the four large volumes of the Handbook offer a unique assembly of leading experts presenting their approaches to the historical Jesus as well as a thought out compilation of original studies on a large variety of topics pertaining to Jesus research and adjacent areas Matthew and the Margins Warren Carter,2005-02-15 This detailed commentary presents the gospel of matthew as a counter narrative showing that it is a work of resistance written from and for a minority community of disciples committed to Jesus the agent of God s saving presence It was written and functions to shape the identity and lifestyle of the early community of jesus followers as an alternative community that can resist the dominant authorities both in rome and in the synagogue The Gospel anticipates the time when Jesus will return and establish God s reign over all including the powers in Rome *Voices from the Forest* Malcolm Cairns,2010-09-30 This handbook of locally based agricultural practices brings together the best of science and farmer experimentation vividly illustrating the enormous diversity of shifting cultivation systems as well as the power of human ingenuity Environmentalists have tended to disparage shifting cultivation sometimes called swidden cultivation or slash and burn agriculture as unsustainable due to its supposed role in deforestation and land degradation However a growing body of evidence indicates that such indigenous practices as they have evolved over time can be highly adaptive to land and ecology In contrast scientific agricultural solutions imposed from outside can be far more damaging to the environment Moreover these external solutions often fail to recognize the extent to which an agricultural system supports a way of life along with a society s food needs They do not recognize the degree to which the sustainability of a culture is intimately associated with the sustainability and continuity of its agricultural system Unprecedented in ambition and scope *Voices from the Forest* focuses on successful agricultural strategies of upland farmers More than 100 scholars from 19 countries including agricultural economists ecologists and anthropologists collaborated in the analysis of different fallow management typologies working in conjunction with hundreds of indigenous farmers of different cultures and a broad range of climates crops and soil conditions By sharing this knowledge and combining it with new scientific and technical advances the authors hope to make indigenous practices and experience more widely accessible and better understood not only by researchers and development practitioners but by other communities of farmers around the world **The Missing Jesus** Bruce David Chilton,Craig Alan Evans,Jacob Neusner,2002 How can Jesus be said to be missing What is missing is not by any means reference to Jesus what is missing is rather an entire dimension of his identity The missing Jesus is Jesus within Judaism This publication has also been published in paper please click here for details
