create the baseball legends we still revere This book lifts the veil on their previously untold stories Through extensive research and newfound discoveries the lives of many of the photographic artists and innovators who brought the game to life have been revealed Their stories are as fascinating as those of the more famous men in front of the lens Some names are iconic such as Charles Conlon Some should be such as Frances Burke Dozens more are profiled all in far more detail than has ever been presented before Of course the book contains hundreds of gorgeous rare images of the Deadball Era many never seen before by the public Longtime collectors have generously granted use of their private collections to embellish this story and what a visual feast it is Ty Cobb Babe Ruth Christy Mathewson Shoeless Joe Jackson and other ballyard legends are all here as seen in their glory days Many readers will buy the book for the images alone My hope is they stick around for the stories

Recreational and Environmental Markets for Forest Enterprises, 2001 It is now increasingly recognized that forests have multiple functions and can provide opportunities for leisure recreation and tourism and other environmental benefits as well as timber In general such public goods are assumed not to be marketable However this book challenges this assumption and shows how these issues can be tackled from an economics and marketing perspective The work is based on an EU funded project conducted from four university or research

centres Hamburg Germany Padua Italy Vienna Austria and Wageningen The Netherlands Many case studies and original surveys are presented from these countries which provide practical solutions to market these forest enterprises These empirical data are then related to economic models concerning public goods This book is relevant to those studying or involved in marketing in the forest tourism recreation and leisure industries Camera Graeca: Photographs, Narratives, Materialities Philip Carabott, Yannis Hamilakis, Eleni Papargyriou, 2016-03-09 While written sources on the history of Greece have been studied extensively no systematic attempt has been made to examine photography as an important cultural and material process This is surprising given that Modern Greece and photography are almost peers both are cultural products of the 1830s and both actively converse with modernity Camera Graeca Photographs Narratives Materialities fills this lacuna It is the first inter disciplinary volume to examine critically and in a theorised manner the entanglement of Greece with photography The book argues that photographs and the photographic process as a whole have been instrumental in the reproduction of national imagination in the consolidation of the nation building process and in the generation and dissemination of state propaganda At the same time it is argued that the photographic field constitutes a site of memory and counter memory where various social actors intervene actively and stake their discursive material and practical claims As such the volume will be of relevance to scholars and photographers worldwide The book is divided into four tightly integrated parts The first Imag in ing Greece shows that the consolidation of Greek national identity constituted a material cum representational process the projection of an imagery although some photographic production sits uneasily within the national canon and may even undermine it The second part Photographic narratives alternative histories demonstrates the narrative function of photographs in diary keeping and in photobooks It also examines the constitution of spectatorship through the combination of text and image and the role of photography as a process of materializing counter hegemonic discourses and practices The third part Photographic matter realities foregrounds the role of photography in materializing state propaganda national memory and war The final part Photographic ethnographies *Popular Photography*, 1991-01
