Conference in Higher Education 2013 Daniel R. Judd, Proceedings of the 3rd International Conference: Quantitative and Qualitative Methodologies in the Economic & Administrative Sciences (QMEAS 2013) Christos Frangos, Transformations in Research, Higher Education and the Academic Market Sharon Rider, Ylva Hasselberg, Alexandra Waluszewski, 2012-12-30 This volume tackles head on the controversy regarding the tensions between the principles underlying Academe on the one hand and the free market on the other Its outspoken thesis posits that seemingly irresistible institutional pressures are betraying a core principle of the Enlightenment that the free pursuit of knowledge is of the highest value in its own right As market principles are forced on universities inducing a neoteric culture of managerialism many worry that the very characteristics that made European higher education in particular such a success are being eroded and replaced by ideological opportunism and economic expediency Richly interdisciplinary the anthology explores a wealth of issues such as the phenomenon of bibliometrics linking an institution's success to the volume and visibility of publications produced Many argue that the use of such indicators to measure scientific value is inimical to the time consuming complexities of genuine truth seeking A number of the greatest discoveries and innovations in the history of science such as Newton's laws of mechanics or the Mendelian laws of inheritance might never have seen the light of day if today's system of determining and defining the form and content of science had dominated With analytical perspectives from political science economics philosophy and media studies the collection interrogates for example the doctrine of graduate employability that exerts such a powerful influence on course type and structure especially on technical and professional training In contrast the liberal arts must choose between adaptation to the dictates of employability strategies or wither away as enrollments dwindle and

resources evaporate Research projects and aims have also become an area of controversy with many governments now assessing the value of proposals in terms of assumed commercial benefits The contributors argue that these changes as well as reforms in the managerial and administrative structures in tertiary education constitute a radical break with the previous ontology of science and scholarship a change in its very character and not merely its form It shows that the scientific thinking students researchers and scholars are encouraged to adopt is undergoing a rapid shift in conceptual content with significant consequences not only for science but also for the society of which it is a part *Proceedings of the 11th International Conference on Emerging Challenges: Smart Business and Digital Economy 2023 (ICECH 2023)* Nguyen Danh Nguyen, Pham Thi Thanh Hong, 2024-02-03 This is an open access book Hanoi University of Science and Technology School of Economics and Management University of Economics Ho Chi Minh City University of Economics and Business Vietnam National University Hanoi National Economics University Faculty of Business and Management The University of Danang University of Economics Vietnam National University International School Foreign Trade University University of Hertfordshire UK AVSE Global France and PPM School of Management Indonesia will organize The 11th International Conference on Emerging Challenges Smart Business and Digital Economy Vietnam on November 3 4 2023 We would like to invite you to be a part of the ICECH2023 and submit your research papers for presentation consideration The aim of ICECH2023 is to provide a forum for academics and professionals to share research findings experiences and knowledge for adaptation and business strategy in a post Covid as well as various uncertainties and complexities in the world in the Asia Pacific region We welcome the submissions in Economics Business Innovation Management and Business Law **ECIE 2018 13th European Conference on Innovation and Entrepreneurship** Professor Carlos Costa, Dr. Manuel Au-Yong-Oliveira, Dr. Marlene Paula Castro Amorim, 2018-09-20 *Partnerships for Placement: Proceedings of the 2004 ASET Annual Conference* Keith Fildes, John Wilson, 2005-05-04 **Journal of the National Cancer Institute**, 1995

Education in a Changing Environment: Conference Book, Volume 4 Eamon O'Doherty, 2008 *Innovation and Entrepreneurship* Elias G. Carayannis, Elpida T. Samara, Yannis L. Bakouros, 2014-10-29 This book aims to meet the needs of education and training in modern techniques of innovation and entrepreneurship and focuses on the detailed presentation of successful business practices As today's global economic landscape is changing rapidly the ability of businesses to introduce new products and services to the market faster than their competitors is perhaps their most distinct competitive advantage This becomes obvious by the significant market share that the most innovative companies gain while increasing profitability Extensive research in this field has demonstrated that companies that are constantly innovating normally double their profits compared to others Moreover establishing successful practices and policies of innovation management through which ideas evolve from conception through evaluation to implementation and commercialization become the basis for economic growth at the firm industry national regional and global levels Taking Greece as an example this volume identifies systemic

weaknesses in development of new products risk capital patenting broadband penetration lifelong training investment in research on the part of firms high tech exports and employment in medium high technology manufacturing that place the country at the bottom of the European Union in economic performance and threaten its potential to achieve sustainable growth To address these weaknesses in Greece and similar countries around the world the authors present a comprehensive overview of the principles of innovation and entrepreneurship with particular respect to their relationships to knowledge learning and creativity Drawing from a strong theoretical foundation and illustrated through in depth case studies and examples from both private and public sectors the authors present a framework for innovation management that integrates research education practical application and policy Specific topics include technology transfer intellectual property rights management the practice of knowledge management intellectual capital investment business incubators and Cooperation Research and Development Agreements CRADAs *Resources in Education* ,2001-10 **ECIE 2023 18th European**
