1998 Business Worklife Study A Sourcebook:

The 1998 Business Work-life Study Ellen Galinsky, James T. Bond, 1998 This study surveyed a representative sample of 1 057 companies with 100 or more employees to assess how U S companies are responding to the work life needs of the nation s changing workforce Specifically the study sought to identify the extent to which companies provide benefits programs and policies and create supportive workplace environments addressing employees work life needs and the characteristics of companies most likely to provide this assistance and support The findings indicated that companies typically allowed workers to leave work to attend school child care functions employees were also allowed to return to work gradually following childbirth adoption Only 10 percent of company representatives thought that using flexible time and leave policies jeopardized employees advancement opportunities Companies were more likely to provide low cost child care options such as dependent care assistance plans than high cost options such as on site child care More than half the companies provided Employee Assistance Programs addressing work life issues Twelve percent of companies offered some type of program for teenage children of employees Companies were most likely to train supervisors in managing diversity and least likely to have career counseling programs for women Almost all companies offered health insurance for full time employees but only 33 percent offered benefits to part time employees Companies most likely to provide work life program and supportive work environments were involved in finance insurance real estate services were larger had a larger proportion of top executive positions filled by women or minorities a larger percentage of women or part time employees a lower percentage of hourly or union employees a larger number of company sites and reported difficulty in filling positions

The Role of Business in Fostering Peaceful Societies Timothy L. Fort, Cindy A. Schipani, 2004-11-11 Originally published in 2004 this book offers a fresh approach to understanding responsible business practice Global protests against multinational companies often give the misleading impression that the interests of multinationals and of peaceful societies are at odds By contrast Fort and Schipani contend not only does business benefit from a peaceful environment but it can in fact effectively foster peace through adopting responsible and open working methods Firms that promote economic development that allow external evaluation of their affairs and that build a sense of community both within the company and in their local areas make a great contribution to building a more harmonious culture Relevant for academics and practitioners the book shows how companies can encourage collaborative working across borders discourage corruption and create citizenship and problem solving practices which tend to reduce violence and increase social harmony

Perrewé, Steven L. Sauter, 2006-03-01 This book was developed for

the 2005 International Stress Management Association Conference in Brazil The original book was recently published in Portuguese but because of the popularity of the topics and the world renowned stress scholars who contributed chapters we are very pleased to have the opportunity to publish this work in English A book on the subject is intended to be an additional tool containing information on stress and ways of dealing with pressures and demands because we know that the level of stress will continue to increase We believe that only through information and here you will be able to find the experience and opinion of some of the greatest and best professionals of the world in this field people will manage to live better and more balanced lives This is what ISMA BR wishes and hopes for Have a good reading This volume provides a series of comprehensive summaries of what is now a fast growing literature aimed at understanding the causes effects and prevention of stress in the workplace It begins with three chapters on different sources of stress at work ranging from organizational factors to attributes of workers themselves

Gurus, Hired Guns, and Warm Bodies Stephen R. Barley, Gideon

Kunda, 2011-10-16 Over the last several decades employers have increasingly replaced permanent employees with temporary workers and independent contractors to cut labor costs and enhance flexibility Although commentators have focused largely on low wage temporary work the use of skilled contractors has also grown exponentially especially in high technology areas Yet almost nothing is known about contracting or about the people who do it This book seeks to break the silence Gurus Hired Guns and Warm Bodies tells the story of how the market for temporary professionals operates from the perspective of the contractors who do the work the managers who employ them the permanent employees who work beside them and the staffing agencies who broker deals Based on a year of field work in three staffing agencies life histories with over seventy contractors and studies of workers in some of America's best known firms the book dismantles the myths of temporary employment and offers instead a grounded description of how contracting works Engagingly written it goes beyond rhetoric to examine why contractors leave permanent employment why managers hire them and how staffing agencies operate Barley and Kunda paint a richly layered portrait of contract professionals Readers learn how contractors find jobs how agents negotiate and what it is like to shoulder the risks of managing one's own employability The authors illustrate how the reality of flexibility often differs substantially from its promise Viewing the knowledge economy in terms of organizations and markets is not enough Barley and Kunda conclude Rather occupational communities and networks of skilled experts are what grease the skids of the high tech matrix economy where firms become way stations in the flow of expertise

The Older
