## **1999 Elections To The European Parliament:**

**The 2004 Elections to the European Parliament** J. Lodge, 2016-02-02 The 2004 election of the European Parliament marks something of a defining point in the history of European integration The 2004 elections seemed simultaneously mundane and an accepted feature of a sui generis system now accepted as a polity in its own right that a quarter of a century ago had seen politicians fiercely disputing the wisdom and desirability of the people directly electing a European Parliament at all (Un)intended Consequences of European Parliamentary Elections Wouter van der Brug, 2016 When direct elections for the European Parliament were first organized in 1979 the idea was that such direct elections would increase the democratic legitimacy and accountability of the Parliament Moreover the elections were expected to raise public interest engagement and support for the European project Did these elections help to increase legitimacy and accountability Did they increase interest in and support for the European project Or did these elections have unintended and perhaps undesirable consequences This volume focuses on the consequences of European elections for public debate and involvement for party systems and for public opinion EP elections have caused a number of intended consequences the salience of the elections in the media has gone up and over time electoral competition becomes more important engaging in the campaign can help improve EU evaluations and Europe as a topic has become more important for voting at EP elections boosting the prevalence of so called EU voting A number of intended consequences have not materialized during the life of the EP so far knowledge or turnout levels have not gone up and citizens have not become better at judging what political parties are offering The EP elections have however also yielded a number of unintended consequences EP elections dampen turnout for first time voters in subsequent elections EP elections cause temporary decline in EU support and the elections have become a strategic arena for political parties to position themselves on EU issues and for new movements and parties to boost or sustain their success

Kelley, 2012-03-25 In recent decades governments and NGOs in an effort to promote democracy freedom fairness and stability throughout the world have organized teams of observers to monitor elections in a variety of countries But when more organizations join the practice without uniform standards are assessments reliable When politicians nonetheless cheat and monitors must return to countries even after two decades of engagement what is accomplished Monitoring Democracy argues that the practice of international election monitoring is broken but still worth fixing By analyzing the evolving interaction between domestic and international politics Judith Kelley refutes prevailing arguments that international efforts cannot curb government behavior and that democratization is entirely a domestic process Yet she also shows that democracy promotion efforts are deficient and that outside actors often have no power and sometimes even do harm Analyzing original data on over 600 monitoring missions and 1 300 elections Kelley grounds her investigation in solid historical context as well as studies of long term developments over several elections in fifteen
