Cumulated Index Medicus, 1996 *Addressing Contemporary Public Health Challenges in Ghana for Improved Outcomes: Getting to SDG 3* Delanyo Dovlo, Kwasi Torpey, Irene Agyepong, Evelyn Ansah, Eugene Nyarko, 2024-12-24 In 1978 Ghana was a participant in the Alma Ata meeting on primary health care and was an early adopter of its ideals However like most developing countries it has made efforts to strengthen public health as a way of ensuring the conditions in which its people can be healthy and productive The evolution of the public health in the country involved core assessments policy development and the implementation of interventions to address its policy objectives The

process of strengthening public health policy and interventions over the past four and more decades has hinged on evidence generated through research at the local and international level. The documentation of interventions to address contemporary health issues is a critical plank for the health practice to policy continuum. It catalyzes the country response to the myriads of public health issues confronting it. Many lessons have accrued for the country's communities to enhance the promotion, restoration and maintenance of health even as the disease burden evolves from one of infectious and communicable diseases and maternal and child health to an increasingly sophisticated triple burden incorporating non-communicable diseases.
