Art History Its Use And Abuse:

Art History W. McAllister Johnson, 1990-01-01 These essays discuss major questions that should arise in courses in bibliography methodology and historiography once the survey courses are left behind **Art History and Education** Stephen Addiss, Mary Erickson, 1993 Guided by Stephen Addiss's grounding in art history scholarship and Mary Erickson's expertise in art education theory and practice this volume approaches the issue of teaching art history from theoretical and philosophical as well as practical and political standpoints In the first section Addiss raises issues about the discipline of art history In the second Erickson examines proposals about how art history can be incorporated into the general education of children and offers some curriculum guides and lesson plans for art educators **Assassination, Politics, and Miracles** David Skuy, 2003 Annotation An in depth examination of the event that precipitated the complete domination of Restoration politics by the Royalists and ultimately convinced millions of French citizens to support Louis XVIII and the Bourbon monarchy On 13 February 1820 the Duke of Berry the only Bourbon prince capable of siring an heir was assassinated Seven months later the Duchess of Berry gave birth to a boy the Duke of Bordeaux and the Bourbon lineage was saved The boy was immediately nicknamed the miracle child The Duke's assassination and the birth of his son gave rise to the Royalist Reaction of 1820 a ten month period that forever altered France's political landscape This remarkable story provides the backdrop for David Skuy's analysis of the Royalist Reaction and its place in the history of the French Restoration Skuy argues that the Royalist Reaction was the product of two divergent forces historical echoes of the French Revolution and the Napoleonic Empire and the psychological consequences of the assassination and the miracle child Skuy discusses Restoration political theory and the development of modern political parties He follows the stratagems of anti royalist extremists plotting to overthrow the Bourbon regime and details the complexities and intrigues that characterized the royal court and parliament Skuy reveals how the assassination and the birth of the miracle child triggered a popular Royalist Reaction that changed millions of French citizens from passive observers into ardent royalists [A World History of Art](#) Hugh Honour, John Fleming, 2005 Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage From our paleolithic past to our digitised present every continent and culture is covered in an articulate and well balanced discussion In this Seventh Edition the text has been revised to embrace developments in archaeology and art historical research while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years providing a new perspective on the latest developments The insight elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations half of which are now in colour These images together with the numerous maps and architectural plans have been chosen to represent the most significant chronological regional and individual styles of artistic expression [Useful Knowledge](#) Alexander G.
