and images from India and the Himalayas A pioneering theme of this study is that in addition to the South Asian connections certain paradigmatic Japanese mandalas reflect pre Buddhist Chinese concepts including geographical concepts In convincing and lucid prose ten Grotenhuis chronicles an intermingling of visual doctrinal ritual and literary elements in these mandalas that has come to be seen as characteristic of the Japanese religious tradition as a whole This beautifully illustrated work begins in the first millennium B C E in China with an introduction to the Book of Documents and ends in present day Japan at the sacred site of Kumano Ten Grotenhuis focuses on the Diamond and Womb World mandalas of Esoteric Buddhist tradition on the Taima mandala and other related mandalas from the Pure Land Buddhist tradition and on mandalas associated with the kami worshipping sites of Kasuga and Kumano She identifies specific sacred places in Japan with sacred places in India and with Buddhist cosmic diagrams Through these identifications the realm of the buddhas is identified with the realms of the kami and of human beings and Japanese geographical areas are identified with Buddhist sacred geography Explaining why certain fundamental Japanese mandalas look the way they do and how certain visual forms came to embody the sacred ten Grotenhuis presents works that show a complex mixture of Indian Buddhist elements pre Buddhist Chinese elements Chinese Buddhist elements and indigenous Japanese elements

Unfolding A Mandala Geri Hockfield Malandra,1993-01-01 Ellora is one of the great cave temple sites of India with thirty four major Buddhist Hindu and Jain monuments of the late sixth to tenth centuries A D This book describes the Buddhist caves at Ellora and places them in the context of Buddhist art and iconography Ellora s twelve Buddhist cave temples dating from the early seventh to the early eighth centuries preserve an unparalleled one hundred year sequence of architectural and iconographical development They reveal the evolution of a Buddhist mandala at sites in other regions often considered peripheral to the heartland of Buddhism in eastern India At Ellora the mandala ordinarily conceived as a two dimensional

diagram used to focus meditation is unfolded into the three dimensional program of the cave temples themselves enabling devotees to walk through the mandala during worship The mandala s development at Ellora is explained and its significance is considered for the evolution of Buddhist art and iconography elsewhere in India **Faith and Power in Japanese**

Buddhist Art, 1600-2005 Patricia J. Graham,2007-09-30 Faith and Power in Japanese Buddhist Art explores the transformation of Buddhism from the premodern to the contemporary era in Japan and the central role its visual culture has played in this transformation Although Buddhism is generally regarded as peripheral to modern Japanese society this book demonstrates otherwise Its chapters elucidate the thread of change over time in the practice of Buddhism as revealed in temple worship halls and other sites of devotion and in imagery representing the religion s most popular deities and religious practices It also introduces the work of modern and contemporary artists who are not generally associated with institutional Buddhism and its canonical visual requirements but whose faith inspires their art The author makes a persuasive argument that the neglect of these materials by scholars results from erroneous presumptions about the aesthetic superiority of early Japanese Buddhist artifacts and an asserted decline in the institutional power of the religion after the sixteenth century She demonstrates that recent works constitute a significant contribution to the history of Japanese art and architecture providing evidence of Buddhism s compelling presence at all levels of Japanese society and its evolution in response to the needs of new generations of supporters Japanese Zen Buddhism and the Impossible Painting Yukio Lippit,2017-02-28 Zen art poses a conundrum On the one hand Zen Buddhism emphasizes the concept of emptiness which among other things asserts that form is empty that all phenomena in the world are illusory On the other hand a prodigious amount of artwork has been created in association with Zen thought and practice A wide range of media genres expressive modes and strategies of representation have been embraced to convey the idea of emptiness Form has been used to express the essence of formlessness and in Japan this gave rise to a remarkable highly diverse array of artworks and a tradition of self negating art In this volume Yukio Lippit explores the painting The Gourd and the Catfish ca 1413 widely considered one of the most iconic works of Japanese Zen art today Its subject matter appears straightforward enough a man standing on a bank holds a gourd in both hands attempting to capture or pin down the catfish swimming in the stream below This is an impossible task a nonsensical act underscored by the awkwardness with which the figure struggles even to hold his gourd But this impossibility is precisely the point
