The Art of Raising A Successful Child Rosalyn Vaughn, 2005-02-01 Today's parents face the ever changing challenges of parenthood. Current research reports parents representing a broad spectrum of academic, socioeconomic and racial backgrounds find mastery of acquiring and implementing successful parenting skills is rare and difficult. Lack of preparation for becoming a parent, childhood observation of parents in action, society's legal and moral actions and reactions to parenting as well as litigation threats associated with parents and discipline can render parenting a lonely and debilitating experience. In this one of a kind book Dr Vaughn seeks to erase the fear of parenting and render a systematic approach to normal parenting processes for raising a successful child. She writes frankly about her experiences as a child, her parenting experiences and reports the success factors adults associate with being raised by concerned parents in tough love environments. Dr Vaughn brings together theories, methodologies and techniques for leadership, communication, cognitive development, empowerment and assessment strategies presented in institutions and organizations and applies them to parental options and consequences associated with raising a successful child. This is a book of systems and hope that places parenthood within life's cycle as the gateway to becoming a satisfied grandparent. For adults who experience parenthood, numerous individuals who aspire to be parents and those who anticipate the enjoyment of being a grandparent, *The Art of Raising A Successful Child* is certain to become a required source of reference.

Judith Noorman, 2025-10-01 Focusing on the interrelationship between Jacob van Loo s art honor and career this book argues that Van Loo s lifelong success and unblemished reputation were by no means incompatible as art historians have long assumed with his specialization in painting nudes and his conviction for manslaughter Van Loo s iconographic specialty the nude allowed his clientele to present themselves as judges of beauty and display their mastery of decorum while his portraiture perfectly expressed his clients social and political ambitions Van Loo s honor explains why his success lasted a lifetime whereas that of Rembrandt Frans Hals and Vermeer did not Taking an interdisciplinary approach this book reinterprets the manslaughter case as a sign that Van Loo s elite patrons recognized him as a gentleman and highly esteemed artist Uniquely this book redefines Van Loo s place within and contribution to the Golden Age of Dutch painting consistently discussing Van Loo in relation to his contemporaries demonstrates that honor was a precondition for artistic success allows new insight into the relation between honor artistic success and socially acceptable behavior particularly of artists in the Dutch Golden Age **The Art of Doing Good** Joanna Handlin Smith, 2009-03-11

An unprecedented passion for saving lives swept through late Ming society giving rise to charitable institutions that transcended family class and religious boundaries Analyzing lecture transcripts administrative guidelines didactic tales and diaries Joanna Handlin Smith abandons the facile explanation that charity was a response to poverty and social unrest and examines the social and economic changes that stimulated the fervor for doing good With an eye for telling details and a finesse in weaving the voices of her subjects into her narrative Smith brings to life the hard choices that five men faced when deciding whom to help how to organize charitable distributions and how to balance their communities needs against the interests of family and self She thus shifts attention from tired questions about whether the Chinese had a tradition of charity they did to analyzing the nature of charity itself Skillfully organized and engaging The Art of Doing Good moves from discussions about moral leadership and beliefs to scrutiny of the daily operation of soup kitchens and medical dispensaries and from examining local society to generalizing about the just use of resources and the role of social networks in charitable giving Smith s work will transform our thinking about the boundaries between social classes in late imperial China and about charity in general **The Womanly Art of**
