The Arts of Encounter Catherine Infante,2022-03-01 Images of crosses the Virgin Mary and Christ among other devotional objects pervaded nearly every aspect of public and private life in early modern Spain but they were also a point of contention between Christian and Muslim cultures Writers of narrative fiction theatre and poetry were attuned to these debates and religious imagery played an important role in how early modern writers chose to portray relations between Christians and Muslims Drawing on a wide variety of literary genres as well as other textual and visual sources including historical chronicles travel memoirs captives testimonies and paintings Catherine Infante traces the references to religious visual culture and the responses they incited in cross confessional negotiations She reveals some of the anxieties about what it meant to belong to different ethnic or religious communities and how these communities interacted with each other within the fluid boundaries of the Mediterranean world Focusing on the religious image as a point of contact between individuals of diverse beliefs and practices The Arts of Encounter presents an original and necessary perspective on how Christian Muslim relations were perceived and conveyed in print

Rethinking Heritage for Sustainable Development Sophia Labadi, 2022-06-06 The Sustainable Development Goals SDGs adopted by the UN in 2015 have influenced the actions of international and intergovernmental organisations and governments around the world and have dictated priorities for international aid spending Culture including heritage is often presented as fundamental to addressing the SDGs since 2010 the United Nations has adopted no fewer than five major policy recommendations that assert its importance as a driver and enabler of development Yet heritage is marginalized from the Sustainable Development Goals Rethinking Heritage for Sustainable Development constitutes a substantial and original assessment of whether and how heritage has contributed to three key dimensions of sustainable development namely poverty reduction gender equality and environmental sustainability within the context of its marginalisation from the Sustainable Development Goals and from previous international development agendas Sophia Labadi adopts a novel inclusive large scale and systematic approach providing the first comprehensive history of the international approaches on culture including heritage for development from 1970 to the present day This book is also the first to assess the negative and positive impacts of all the international projects implemented in sub Saharan Africa by a consortium of UN organisations that aimed to provide evidence for the contribution of heritage for development in time for the negotiation of the SDGs The book's conclusions provide recommendations for rethinking heritage for development while reflecting on the major shortcomings of the selected projects

The Vincentians: A General History of the Congregation of the Mission John E. Rybolt, Their mission was humble and simple to

reach the poor country people who suffered from ignorance of their faith a debased clergy and poverty In response Vincent De Paul defined the vocation of his Little Company as preaching local missions for free educating the clergy and working to relieve the people s poverty Soon however this vocation was complicated by commands to minister to royal families including Louis xiv of France and the kings and queens of Poland which would embroil the Vincentians in international and ecclesiastical politics In addition they would begin dangerous foreign missions such as ministering to the Christian captives of the Barbary pirates the debased colonists and rebellious natives of Madagascar and the vendetta prone Corsicans For the first time modern readers have a thoroughly researched history based on original documents and the studies of numerous scholars past and present It portrays the Vincentians daily lives and describes their failings as well as their exalted acts of heroism It also details the social and political milieus that conditioned their lives and work It is an important down to earth side of history not often told Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1894
