management of overwhelming emotions Now in Volume Two Inner Work we turn our attention away from outer goals having to do with our physiology and our relation to society at large and its prescriptions to the much more subtle interior changes occurring in our consciousness Continuing our climb up the rungs of the diamond ladder we are introduced to the landscape of mysticism a topography whose several regions are each characterized by the mastery of a different psychological capacity Yoga gives us an interior ladder in the form of the subtle body that is comprised of the chakras each of which opens onto a distinctly different emotional realm In this work our feeling function becomes highly differentiated Tibetan mandala meditation disciplines our imaginative capacity as we bring the heavenly palace of copulating gods and goddesses into being By cultivating emptiness we pare away our attachments to the memories that have been holding us back and the aspirations that narrow our future so that we can dwell in the present moment without the props of doctrine and method Passing beyond our personal self we are introduced to the divine oneness of the cosmos pulsing between accomplished union and the vision of that with which we are united We return from such ecstasy to live our temporal lives on two planes simultaneously as spiritual wayfarers
