Skreslet, 2023-01-17 Three master narratives currently dominate the analysis of modern mission history One puts foreign missionaries at the heart of the story A second emphasizes the colonial aspect of modern missions Here missionaries are not heroes but villains who are implicated in hegemonic schemes of imperial domination Thirdly mission history is subordinated to one of its outcomes the advent of World Christianity In this master narrative the concept of contextualization looms large bolstered by Sanneh's notion of translatability and emphasis on the agency of non Westerners who participate in and subtly shape the complex social processes of evangelization While all three of these master narratives are insightful none of them adequately balances concern for missionary initiative and indigenous agency Borrowing from speech act theory Skreslet offers a new analytical approach to the modern roots of World Christianity that differentiates between what a speaker might intend to communicate and the effects of what has been said or actions taken both in the moment and over time Corresponding to the concepts of illocution and perlocution as these technical terms are used in speech act theory the book is structured in two main sections Initially the focus is on expressed missionary motives Part two engages a representative set of modern era mission performances involving many more actors than just the foreign evangelizers whose stated or implied intentions are emphasized in part one **The Outrageous Idea of Christian Teaching** Perry Lynn Glanzer, Nathan F. Alleman, George M. Marsden, 2019 Thousands of professors claim Christian as their

primary identity and teaching as their primary vocational responsibility But how does being a Christian change one s teaching Indeed should it The Outrageous Idea of the Christian Teacher explores the responses of more than 2 300 Christian professors from 48 different institutions across North America to find out **Anyone Can Teach Art: How to Confidently Teach Art in Your Classical Homeschool** Julie Abels,2020-04-11 Me Teach art I don t even know how to draw Many of us started there We felt a total lack of confidence about teaching art We wanted to give our children all the benefits of art in their education but didn t know how Some of us did a few colorful hands on projects with our children but we could see they weren t really learning the basics of art We had never learned the basics of art ourselves But then after a few years of teaching art with the classical model of education we realized that teaching art can be as simple as teaching any other subject and we can learn it alongside our children Now we ve condensed our knowledge here for you Instead of a how to draw book Anyone Can Teach Art presents the scope and sequence of a classical Christian art curriculum for K 12 students In this book we break it all down for you By the end of this book you ll know Why art should be included in everyone s education What are the basics of art creation and art appreciation How to use the ancient amazingly effective classical model of education to teach art Which simple drills and exercises to include in art projects to help students advance their skills How to proceed in art education once your students have mastered the basics What s stopping you from including art in your child s education Learn the basics and follow the plan in this book and you ll realize how easy it really is to teach art
