Art is notoriously difficult to define due to its diverse forms and subjective nature. At its core, art is a manifestation of human creativity and imagination, created to express ideas, emotions, or, in some cases, to serve a functional purpose. It encompasses a range of human activities in creating visual, auditory, or performed artifacts—artworks—that express the creator's imaginative or technical skill.

Forms of Art

Visual Arts

1. **Painting:** This is perhaps the most recognized form of visual art. It involves applying pigment to a surface such as canvas, paper, or a wall, creating expressive images and scenes.
2. **Sculpture:** Sculpture is the art of creating three-dimensional works. It can involve carving, modeling, or welding materials like stone, metal, or clay.
3. **Photography:** An art form that captures real-life images using a camera. It ranges from documentary photography to creative and abstract compositions.
4. **Architecture:** Often considered both an art and a science, architecture involves designing and constructing buildings and other physical structures, blending functionality with aesthetic design.
