Art Deco Complete Alastair Duncan, 2009 In the most comprehensive account of the decorative arts of the Art Deco period ever assembled Alastair Duncan celebrates the rich variety of form and diverse international roots that have made it a perennial favourite of collectors and a constant source of inspiration for designers Straddling two World Wars and the Great Depression ushering in the Jazz Age and the era of the automobile and skyscraper and shaping everything from the Golden Gate Bridge to the humble desk lamp the story of Art Deco is the story of our modern world In its purest forms it developed from a characteristically French image of luxury and refinement Later modernist European and American designers incorporated metal and plastic in styles described as Streamline Moderne but which are now called Deco Although Paris was the spiritual home of the movement Art Deco was a truly global style with designers from every country in Europe and the Americas inspired by a vast international catalogue of artistic and craft traditions The guide begins with essays on the major media of the period Furniture and Interior Decoration Sculpture Paintings Graphics Posters and Bookbinding Glass Ceramics Lighting Textiles Silver Metal Lacquer and Enamel and Jewelry each followed by lavishly illustrated in depth biographies of the major designers and artists working in the medium The second half of the book is an authoritative illustrated A Z listing of all significant designers in the Art Deco style comprising over four hundred entries **Classical New York** Elizabeth Macaulay-Lewis, Matthew McGowan, 2018-09-04 Essays on the historical Greco Roman influence on the evolving architectural landscape of New York City During its rise from capital of an upstart nation to global metropolis the visual language of Greek

and Roman antiquity played a formative role in the development of New York's art and architecture. This compilation of essays offers a survey of diverse reinterpretations of classical forms in some of the city's most iconic buildings, public monuments and civic spaces. Classical New York examines the influence of Greco-Roman thought and design from the Greek Revival of the late eighteenth and early nineteenth centuries through the late nineteenth century American Renaissance and Beaux Arts period and into the twentieth century's Art Deco. At every juncture New Yorkers looked to the classical past for knowledge and inspiration in seeking out new ways to cultivate a civic identity and to structure their public and private spaces. Specialists from a range of disciplines—archaeology, architectural history, art history, classics and history—focus on how classical art and architecture are repurposed to help shape many of New York City's most evocative buildings and works of art. Federal Hall evoked the Parthenon as an architectural and democratic model; the Pantheon served as a model for the creation of libraries at New York University and Columbia University. Pennsylvania Station derived its form from the Baths of Caracalla, and Atlas and Prometheus of Rockefeller Center recast ancient myths in a new light during the Great Depression. This examination of post-Revolutionary art, politics and philosophy enriches the conversation about how we shape space, be it civic, religious, academic, theatrical or domestic, and how we make use of that space and the objects in it.

Art Deco Judith Miller, Nicholas M. Dawes, 2005. The definitive all-colour guide for any Art Deco enthusiast showcasing over 1,000 individually priced items. With up-to-date tips and advice from bestselling expert Judith Miller, this glorious guide will show you all you need to know about Art Deco. From Clarice Cliff to Chanel, you can't afford to buy or sell without it. Judith is the ideal expert to guide both amateur and experienced collectors.

Homes and Interiors: The Paris Salons, 1895-1914: Objets d'art & metalware Alastair Duncan, 1994. This essential guide continues Duncan's survey of this key period with a study of both orfèvrerie, the objects d'arts created by gold and silversmiths and metalware. At this point in history, the distinction between the fine and decorative arts began to weaken, resulting in exquisite enamelling by such luminaries as Lalique, brilliantly fashioned household accoutrements of bronze and wrought iron and a flourishing of sculpture. Over 2,000 illustrations beautifully document these important pieces.
