Nick Prior, 2002-06-01 Short listed for the Philip Abrams Memorial Prize 2003 Museums have been the subject of intense
debate in recent years and their history and development raise important questions What was modern about the art museum
Why did museums emerge when and where they did How were museums involved with the development of modern art worlds
What was the relationship between art galleries and their audiences and who were the key people involved with their
inception Focusing on the role of national art galleries in continental Europe England and Scotland this book explores in
depth the interrelationship between artistic and exhibitionary forms as well as between power and governance in those
places where the roots of modern culture were being laid most visibly Drawing upon debates concerning modernity Prior
investigates how the boundaries of art and culture have been determined within the museum world In particular he looks at
the interface between the project of the nation and the gallery and how galleries were involved in making certain social
groups or bodies feel at home and others excluded Folk Art and Modern Culture in Republican China Felicity
Lufkin, 2016-01-21 Folk art is now widely recognized as an integral part of the modern Chinese cultural heritage but in the
early twentieth century awareness of folk art as a distinct category in the visual arts was new Internationally intellectuals in
different countries used folk arts to affirm national identity and cultural continuity in the midst of the changes of the modern
era In China artists critics and educators likewise saw folk art as a potentially valuable resource perhaps it could be a fresh
source of cultural inspiration and energy representing the authentic voice of the people in contrast to what could be seen as
the limited and elitist classical tradition At the same time many Chinese intellectuals also saw folk art as a problem they
believed that folk art as it was promoted superstitious and backward ideas that were incompatible with modernization and
progress In either case folk art was too important to be left in the hands of the folk educated artists and researchers felt a
responsibility intervene to reform folk art and create new popular art forms that would better serve the needs of the modern
nation In the early 1930s folk art began to figure in the debates on social role of art and artists that were waged in the pages
of the Chinese press the first major exhibition of folk art was held in Hangzhou and the new print movement claimed the

print as a popular artistic medium while for the most part declaring its distance from contemporary folk printmaking practices During the war against Japan from 1937 to 1945 educated artists deployed imagery and styles drawn from folk art in morale boosting propaganda images but worried that this work fell short of true artistic accomplishment and pandering to outmoded tastes The questions raised in interaction with folk art during this pivotal period questions about heritage about the social position of art and the exercise of cultural authority continue to resonate into the present day The Imperfect Art Ted Gioia,1990
