PREFACE One of the beneficial results of the Great War has been the teaching of thrift to the American housewife For patriotic reasons and for reasons of economy more attention has been bestowed upon the preparing and cooking of food that is to be at once palatable nourishing and economical In the Italian cuisine we find in the highest degree these three qualities That it is palatable all those who have partaken of food in an Italian trattoria or at the home of an Italian family can testify that it is healthy the splendid manhood and womanhood of Italy is a proof more than sufficient And who could deny knowing the thriftiness of the Italian race that it is economical It has therefore been thought that a book of PRACTICAL RECIPES OF THE ITALIAN CUISINE could be offered to the American public with hope of success It is not a pretentious book and the recipes have been made as clear and simple as possible Some of the dishes described are not peculiar to Italy All however are representative of the Cucina Casalinga of the peninsular Kingdom which is not the least product of a lovable and simple people among whom the art of living well and getting the most out of life at a moderate expense has been attained to a very high degree

1 BROTH OR SOUP STOCK Brodo To obtain good broth the meat must be put in cold water and then allowed to boil slowly Add to the meat some pieces of bones and soup greens as for instance celery carrots and parsley To give a brown color to the broth some sugar first browned at the fire then diluted in cold water may be added While it is not considered that the broth has much nutritive power it is excellent to promote the digestion Nearly all the Italian soups are made on a basis of broth A good recipe for substantial broth to be used for invalids is the following Cut some beef in thin slices and place them in a large saucepan add some salt Pour cold water upon them so that they are entirely covered Cover the saucepan so that it is hermetically closed and place on the cover a receptacle containing water which must be constantly renewed Keep on a low fire for six hours then on a strong fire for ten minutes Strain the liquid in cheese cloth The soup stock besides being used for soups is a necessary ingredient in hundreds of Italian dishes

2 SOUP OF CAPPELLETTI This Soup is called of Cappelletti or little hats on account of the shape of the Cappelletti First a thin sheet of paste is made according to the following directions The best and most tender paste is made simply of eggs flour and salt water may be substituted for part of the eggs for economy or when a less rich paste is needed Allow about a cup of flour to an egg Put the flour on a bread board make a

hollow in the middle and break in the egg Use any extra whites that are on hand Knead it thoroughly adding more flour if necessary until you have a paste you can roll out Roll it as thin as an eighth of an inch A long rolling pin is necessary but any stick well scrubbed and sand papered will serve in lieu of the long Italian rolling pin Cut from this sheet of paste rounds measuring about three inches in diameter In the middle of each circle place a spoonful of filling that must be made beforehand composed of cooked meat chicken pork or veal ground very fine and seasoned with grated cheese grated lemon peel nutmeg allspice salt The ground meat is to be mixed with an equal amount of curds or cottage cheese When the filling is placed in the circle of paste fold the latter over and moisten the edge of the paste with the finger dipped in water to make it stay securely closed These cappelletti should be cooked in chicken or beef broth until the paste is tender and served with this broth as a soup

simplified because so many fewer accounts are involved A Schedule of Accounts Receivable is then prepared consisting of the balances found in the Sales Ledger and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance A similar Schedule of Accounts Payable made up of all the balances in the Purchase Ledger is prepared and it must agree with the balance of the Accounts Payable account of the General Ledger The Balance Sheet In the more elementary part of the text the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise In the present chapter he was shown how to prepare a similar statement the Balance Sheet For all practical
