Carman, 2000 Carman art history State U of New York Buffalo finds in civic humanism a resolution to a tension between an active life and one devoted to heavenly contemplation in 15th century Italy and uses it as a frame to view Renaissance culture He explores the role artists played and the extent to which their painting sculpture and architecture expresses some sense of both experiential and spiritual consciousness Each of the six essays many first delivered as papers analyzes a particular quality in some of the major works within the canon Their topics include human dignity a Renaissance microcosm the poetry of painting and the mind triumphant The text is double spaced the reproductions are monochrome Annotation copyrighted by Book News Inc Portland OR Caravaggio in Context John F. Moffitt, 2015-02-18 Michelangelo Merisi da Caravaggio 1571 1610 has long been recognized as one of the great innovators in the history of art Through detailed analysis of paintings from his early Roman period 1594 1602 this study now situates his art firmly within both its humanistic and its scientific context Here both his revolutionary painterly techniques pronounced naturalism and dramatic chiaroscuro and his novel subject matter still life compositions and genre scenes are finally put into their proper cultural and contemporary environment This environment included the contemporary rise of empirical scientific observation a procedure like Caravaggio s naturalism committed to a close study of the phenomenal world It also included the interests of his erudite aristocratic patrons influential Romans whose tastes reflected the Renaissance commitment to humanistic studies emblematic literature and classical lore The historical evidence entered into the record here includes both contemporary writings addressing the instructive purposes of art and the ancient literary sources commonly manipulated in Caravaggio s time that sanctioned a socially realistic art The overall result of this investigation is characterize the work of the painter as an expression of learned naturalism *Renaissance Thought and the Arts* Paul Oskar Kristeller, 2020-06-30 Written by an eminent authority on the Renaissance these classic essays deal not only with Paul Kristeller s specialty Renaissance humanism and philosophy but also with Renaissance theories of art The focus of the collection is on topics such as humanist learning humanist moral thought the diffusion of humanism Platonism music and learning during the early Renaissance and the modern system of arts in relation to the Renaissance For this volume the author has written a new preface a new essay and an afterword

Humanism and the Culture of Renaissance Europe Charles G. Nauert, 2006-05-04 In this updated edition of his classic account Charles Nauert charts the rise of humanism as the distinctive culture of the social political and intellectual elites in Renaissance Europe He traces humanism s emergence in the unique social and cultural conditions of fourteenth century Italy and its gradual diffusion throughout the rest of Europe He shows how despite its elitist origins humanism became a major

force in the popular culture and fine arts of the fifteenth and sixteenth centuries and the powerful impact it had on both the Protestant and Catholic Reformations He uses art and biographical sketches of key figures to illuminate the narrative and concludes with an account of the limitations of humanism at the end of the Renaissance The revised edition includes a section dealing with the place of women in humanistic culture and an updated bibliography It will be essential reading for all

students of Renaissance Europe **The Art of Arguing in the World of Renaissance Humanism** Marc Laureys, Roswitha Simons, 2013-12-04 Strategies and characteristics of scornful criticism and fierce debate in the Humanist tradition Renaissance humanists were often engaged in a wide variety of polemics ranging from matter of fact debate to scathing invective The programmatic nature of Renaissance humanism intent on a fundamental reform of language education and society at large led the humanists almost inevitably to conflicts with those who represented other intellectual traditions first and foremost the Scholastics In addition internal competition among humanists sparked violent quarrels in which opponents walked a thin line between defensive self preservation and aggressive self promotion In the 16th century the practice of dispute was partly reshaped by new national and confessional divides the intensification of controversy also prompted a more conscious reflection on the potential and limits of polemical exchange This volume sheds light on the characteristics and strategies of the humanist art of arguing through a series of case studies from representative areas The contributors intend to show how humanists constantly remodelled the art of arguing by exploiting in ever new ways the Classical rhetoric of blame and thus paved the way for the early modern culture of dispute **The New Humanism** Barry Schwartz, 1974
