The Gracing of Human Experience Donald L. Gelpi, 2008-04-01 This study ponders different ways Christian thinkers understood humanity in its relationship to divine grace It names fallacies that have in the past skewed theological understanding of that relationship It argues that the philosophy of Charles Sanders Peirce avoided those same fallacies and provides a novel frame of reference for rethinking the theology of grace The author shows how the insights of other American philosophers flesh out undeveloped aspects of Peirce's thought He formulates a metaphysics of experience derived from his philosophical analysis Finally he develops an understanding of supernatural grace as the transmutation and transvaluation of human experience

Russian Culture, Property Rights, and the Market Economy Uriel Procaccia, 2007-05-28 The Russian Federation is struggling since Perestroika and the Glasnost in a futile attempt to become a normal member in the occidental family of market economies The attempt largely fails because corporations do not live up to Western standards of behavior and private contracts are often not respected What is the cause of Russia's observed difficulties It is commonly believed that these difficulties are an expected outcome of a rocky transition from a Marxist centrally planned system to a market based economy This book challenges the accepted wisdom In tracing the history of contract and the corporation in the West it shows that the cultural infrastructure that gave rise to these patterns of economic behavior have never taken root on Russian soil This deep divide between Russian and Western cultures is hundreds of years

old and has little if anything to do with the brief seventy year long experimentation with overtly Marxist ideology The transformation of Russia into a veritable market economy requires much more than an expensive and difficult transition period it mandates a radical change in her cultural underpinnings The book s main thesis is supported by an in depth comparison of Western and Russian theology philosophy literary and artistic achievements musical and architectural idioms and folk culture *Paul Tillich's Philosophy of Art* Michael Palmer,2017-04-10 No detailed description available for Paul Tillich s Philosophy of Art **A Bergsonian Approach to Translation and Time** Salah Basalamah,2024-10-15 This innovative book offers a systematic conceptual exploration of translation through the lens of time challenging the traditional notion of translation as mere linguistic transfer and advancing a new research agenda within the philosophy of translation The volume sets the stage by establishing an overarching framework that positions the philosophy of translation as a distinct subdiscipline within translation studies It then reviews existing scholarship on translation in light of Henri Bergson s philosophy of time proposing an expanded conceptualization of translation Using this foundation Basalamah explores a variety of topics at the intersection of translation and time from transdisciplinary perspectives including epistemology consciousness mediations through image and art the mind body problem time in phenomenology and ethical and religious considerations As a pioneering work on the temporal characteristic of translation this book will be of interest to students and scholars in translation studies especially those focused on its philosophical treatment
