Explorations in Art and Technology Linda Candy,Ernest

Edmonds,Fabrizio Poltronieri,2018-10-04 Explorations in Art and Technology presents the explorations in Art and Technology of the Creativity Cognition Research Studios The Studios were created to bring together the visions and expertise of people working at the boundaries of art and digital media The book explores the nature of intersection and correspondence across these disciplinary boundaries practices and conceptual frameworks through artists illustrated contributions and studies of work in progress These experiences are placed within the context of recent digital art history and the innovations of early pioneers

Gaming Utopia Claudia Costa Pederson,2021-04-06 In Gaming Utopia Ludic Worlds in Art Design and Media Claudia Costa Pederson analyzes modernist avant garde and contemporary video games to challenge the idea that gaming is an exclusively white heterosexual male corporatized leisure activity and reenvisions it as a catalyst for social change By looking at over fifty projects that together span a century and the world Pederson explores the capacity for sociopolitical commentary in virtual and digital realms and highlights contributions to the history of gaming by women queer and transnational artists The result is a critical tool for understanding video games as imaginative forms of living that offer alternatives to our current reality With an interdisciplinary approach Gaming Utopia emphasizes how game design creation and play can become political forms of social protest and examines the ways that games as art open doors to a more just and peaceful world

From Technological to Virtual Art Frank Popper,2007 Frank Popper traces the development of immersive interactive new media art from its antecedents through today s digital multimedia networked art
