Art In Business The Philip Morris Story:

Art in Business Sam Hunter, 1979 *Cultural Excursions* Neil Harris, 1990-10-15 Selected essays written over a period of fifteen years **Privatising Culture** Chin-tao Wu, 2020-05-05 Corporate sponsorship and business involvement in the visual arts have become increasingly common features of our cultural lives From Absolut Vodka's sponsorship of art shows to ABN AMRO Bank's branding of Van Gogh's self portrait to advertise its credit cards we have borne witness to a new sort of patronage in which the marriage of individual talent with multinational marketing is beginning to blur the comfortable old distinctions between public and private Chin tao Wu's book is the first concerted attempt to detail the various ways in which business values and the free market ethos have come to permeate the sphere of the visual arts since the 1980s Charting the various shifts in public policy which first facilitated the entry of major corporations into the cultural sphere it analyses the roles of governments in injecting the principles of the free market into public arts agencies in particular the Arts Council in Great Britain and the National Endowment for the Arts in the USA It goes on to study the corporate take over of art museums highlighting the ways in which cultural capital can be garnered by various social and business elites through commercial involvement in the arts and shows how corporations have succeeded in integrating themselves into the infrastructure of the art world itself by showcasing contemporary art in their own corporate premises Mapping for the first time the increasingly hegemonic position that corporations and corporate elites have come to occupy in the cultural arena this is a provocative contribution to the debate on public culture in Britain and America Douglas MacAgy and the Foundations of Modern Art Curatorship David R. Beasley, 1998 From formative years in Toronto and Philadelphia MacAgy became the catalyst for the advent of American abstraction the spirit behind the modern art movement the introducer and interpreter of European and Russian art to America the head of the National Endowment for the Arts and the installer of the Hirshhorn Museum and Sculpture Garden He was on the cutting edge of modern art movements from American abstract expressionism to conceptualism and fought as an independent educator against the forces using art for political ends MacAgy has a place in history George Rickey **The Transformation of the Avant-Garde** Diana Crane, 1987 Discusses the social aspects of art popular culture as art galleries museums and the meaning of art The Rise and Fall of American Art, 1940s-1980s Catherine Dossin, 2016-03-03 In *The Rise and Fall of American Art 1940s 1980s* Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne and Turin emerged as major commercial and artistic hubs a development that enabled

European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period **The Rise and Fall of American Art, 1940s-1980s** Assoc Prof Catherine Dossin,2015-03-28 This book challenges the perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition In her transnational and interdisciplinary study Dossin analyses changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors

Patronizing the Arts Marjorie Garber,2008-07-28 What is the role of the arts in American culture Is art an essential element If so how should we support it Today as in the past artists need the funding approval and friendship of patrons whether they are individuals corporations governments or nonprofit foundations But as *Patronizing the Arts* shows these relationships can be problematic leaving artists patronized both supported with funds and personal interest while being condescended to for vocations misperceived as play rather than serious work In this provocative book Marjorie Garber looks at the history of patronage explains how patronage has elevated and damaged the arts in modern culture and argues for the university as a serious patron of the arts With clarity and wit Garber supports rethinking prejudices that oppose art s role in higher education rejects assumptions of inequality between the sciences and humanities and points to similarities between the making of fine art and the making of good science She examines issues of artistic and monetary value and transactions between high and popular culture She even asks how college sports could provide a new way of thinking about arts funding Using vivid anecdotes and telling details Garber calls passionately for an increased attention to the arts not just through government and private support but as a core aspect of higher education Compulsively readable *Patronizing the Arts* challenges all who value the survival of artistic creation both in the present and future *I Heard It Through the Grapevine*

Patricia A. Turner,2023-11-15 *I Heard It Through the Grapevine* explores how rumors that run rife in African American communities concerning such issues as AIDS the Ku Klux Klan and FBI conspiracies translate white oppression into folk warnings and are used by the community to respond to a hostile dominant culture *I Heard It Through the Grapevine* explores how rumors that run rife in African American communities concerning such issues as AIDS the Ku Klux Klan and FBI conspiracies translate white oppression into folk warnings and are used by the community to resp Cigarette Seduction -
