

The background of the book cover is a complex, abstract black and white artwork. It features numerous dark, ink-like splatters and drips against a lighter, textured background. In the center, there is a dark, somewhat indistinct shape that resembles a crouching or hunched figure. The overall effect is one of raw, gestural energy.

Art Into Theatre Performance Interviews And Documents:

Art Into Theatre Nick Kaye, 1996 *Art Into Theatre* Nick Kaye, 2013-11-05 *Art Into Theatre* investigates the processes of hybrid forms of performance developed between 1952 and 1994 through a series of interviews with key practitioners and over 80 pieces of documentation many previously unpublished of the works under discussion Ranging from the austerity of Cage's 4 33 through the inter species communication of Schneeman's Cat Scan and the experimental theatre work of Schechner Foreman and Kirby to the recent performances of Abramovic Forced Entertainment and the Wooster Group *Art Into Theatre* offers a fascinating collection of perspectives on the destabilizing of conventional ideas of the art object and the theatrical text Nick Kaye's introductory essay to the volume offers a useful context for the reader and each interview is preceded by an informative biographical sketch **Public Art in Canada** Annie G rin, James S. McLean, 2011-03-18

Arguably public art is experienced daily by more people than most offerings in galleries yet our notion of what constitutes public art is surprisingly limited *Public Art in Canada* broadens the critical discussion by exploring public art's varied means of engaging with public space and the public sphere Annie G rin and James S McLean have assembled contributions from new and established Canadian scholars curators and artists Each contributor enlivens our understanding of public art as a practice and its place in the social and aesthetic formation of which it is a part As a result the book provides an overview of the current debates in the field of public art that are informed by the theories and critical literature of art history communication studies cultural studies sociology and urban studies The rigorous essays and original works of art collected in this volume present a compelling demonstration of the strategies aesthetic and otherwise used by artists to elicit intellectual sensual or emotional responses that can only be obtained through artistic practices in public places *Public Art in Canada* is a major contribution to the study of Canadian art and culture *Archaeologies of Presence* Gabriella Giannachi, Nick Kaye, Michael Shanks, 2012 *Archaeologies of Presence* is a brilliant exploration of how the performance of presence can be understood through the relationships between performance theory and archaeological thinking Drawing together carefully commissioned contributions by leading international scholars and artists this radical new work poses a number of essential questions What are the principle signifiers of theatrical presence How is presence achieved through theatrical performance What makes a memory come alive and live again How is presence connected with identity Is presence synonymous with being in the moment What is the nature of the co presence of audience and performer Where does performance practice end and its documentation begin Co edited by performance specialists Gabriella Giannachi and Nick Kaye and archaeologist Michael Shanks *Archaeologies of Presence* represents an innovative and rewarding feat of interdisciplinary scholarship

Elements of Architecture Mikkel Bille, Tim Flohr Sorensen, 2016-02-26 *Elements of Architecture* explores new ways of engaging architecture in archaeology It conceives of architecture both as the physical evidence of past societies and as existing beyond the physical environment considering how people in the past have not just dwelled in buildings but have

existed within them The book engages with the meeting point between these two perspectives For although archaeologists must deal with the presence and absence of physicality as a discipline which studies humans through things to understand humans they must also address the performances as well as temporal and affective impacts of these material remains The contributions in this volume investigate the way time performance and movement both physically and emotionally are central aspects of understanding architectural assemblages It is a book about the constellations of people places and things that emerge and dissolve as affective mobile performative and temporal engagements This volume juxtaposes archaeological research with perspectives from anthropology architecture cultural geography and philosophy in order to explore the kaleidoscopic intersections of elements coming together in architecture Documenting the ephemeral relational and emotional meeting points with a category of material objects that have defined much research into what it means to be human Elements of Architecture elucidates and expands upon a crucial body of evidence which allows us to explore the lives and interactions of past societies
