Brecht's epic theatre sought to change how spectators watched performances equipping them to critique and intervene in the world outside the theatre. Taking its cue from his call for theatre to develop the art of spectatorship, this major new study explores vision, observation and spectatorship in twelve of his plays spanning his career. It relates this analysis to Brecht's own formative experiences of spectatorship to his poems and theories and to productions directed by Brecht and his close collaborators. Finally, it investigates Brecht's attempts to transform the composition of the audience and cultivate critical spectatorship at the Berliner Ensemble, the theatre he founded with his wife, the actor Helene Weigel, in East Berlin after the Second World War. Brecht's plays foreground scenarios in which watching matters as characters witness acts of injustice, watch trials or punishments, engage in surveillance or observe scientific experiments. These instances of onstage spectatorship play a key role in Brecht's drive to transform the viewing practices of the theatre audience, showing the audience what characters notice, what they overlook and how they use or ignore the knowledge that they have gained through spectatorship. Drawing on archival material and sources that have previously been rarely consulted, Laura Bradley shows how Brecht and his close collaborators, Erich Engel, Benno Besson, Peter Palitzsch and Manfred Wekwerth, dealt with onstage spectatorship in performance, presenting characters as observers and spectators from whom the theatre audience should learn. By combining analysis of text, performance and reception, *Brecht and the Art of Spectatorship* provides rich insights into Brecht's plays, rehearsal methods and stagings and the experiences of spectators at productions of his plays in the Weimar Republic, in exile and in the GDR.

*Aesthetics and Politics* Theodor Adorno, Walter Benjamin, Ernst Bloch, Bertolt Brecht, Georg Lukacs, 2020-10-13 An intense and lively debate on literature and art between thinkers who became some of the great figures of twentieth-century philosophy and literature. With an afterword by Fredric Jameson. No other country and no other period has produced a tradition of major aesthetic debate to compare with that which unfolded in German culture from the 1930s to the 1950s. In *Aesthetics and Politics*, the key texts of the great Marxist controversies over literature and art during these years are assembled in a single volume. They do not form a disparate collection but a continuous interlinked debate between thinkers who have become giants of twentieth-century intellectual history.

*Bertolt Brecht* John Fuegi, 1987 Covers Brecht's day-to-day work as a theatre director, telling how he worked with actors and how his productions were actually put together in rehearsal.
