**The Art of Florence an Interpretation (Classic Reprint)** H. H. Powers, 2018-03-22 Excerpt from *The Art of Florence an Interpretation* Our field thus defined it remains for us to conceive clearly what we propose to do in it The interpretation of art must be carefully distinguished from the interpretation or explanation of painting sculpture and so forth the special forms of art The latter would imply much discussion of processes mediums materials and so forth To some extent these inquiries are inevitable for it not infrequently happens that the materials or the processes employed in art have much to do with the choice of themes and the manner of their treatment This is conspicuously true of the mosaics where the building of pictures with little cubes of marble or other material Was so unlike painting making some things so much easier and other things so much harder that the ideals of art inevitably underwent serious modification in consequence We shall not understand the mosaics or get into sympathy with them unless we see that their disparagement of personality and intellectual suggestion and their emphasis upon splendor and interpretive decoration was largely due to the materials of which they were made and the process which the artist was compelled to employ It is folly to attempt to make a picture with mosaic or a statue with paint When we see art developing preferences in subject and manner on account of the materials or the processes in use we can understand that development only by taking account of these processes and materials So much we shall try to do and only so much and this too in an utterly untechnical manner Into the maze of studio jargon and studio procedure we shall not try to penetrate Not only is this a process of enormous difficulty for the layman it is distinctly prejudicial to his enjoyment of art The studio bears the same relation to art that the kitchen does to the banquet The proof of the pudding is in the eating not in the cooking It is not through the kitchen that the guests are taken to the feast About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish

Scott Nethersole, 2018-07-17 This study is the first to examine the relationship between art and violence in 15th century Florence exposing the underbelly of a period more often celebrated for enlightened and progressive ideas Renaissance Florentines were constantly subjected to the sight of violence whether in carefully staged rituals of execution or images of the suffering inflicted on Christ There was nothing new in this culture of pain unlike the aesthetic of violence that developed towards the end of the 15th century It emerged in the work of artists such as Piero di Cosimo Bertoldo di Giovanni Antonio del Pollaiuolo and the young Michelangelo Inspired by the art of antiquity they painted engraved and sculpted images of deadly battles ultimately normalizing representations of brutal violence Drawing on work in social and literary history as well as art history Scott Nethersole sheds light on the relationship between these Renaissance images violence and ideas of artistic invention and authorship

**The Art of Florence an Interpretation** H. H. Powers, 2015-06-13 Excerpt from The Art of Florence an Interpretation The purpose of this book is somewhat more ambitious than its title suggests It is an attempt partially to interpret the development of Christian art from the time of Constantine to the death of Michelangelo The term Christian as applied to art may be used in two senses On the one hand it may mean the art of countries and periods which have recognized in a degree at least the Christian religion In that sense all the art of Europe for the last sixteen hundred years with the single exception of the Moorish art in Spain must be accounted Christian There is a feeble semblance of unity and possibly of Christian suggestion in this vast category but there are few adjectives less descriptive of the art of Boucher or Whistler than this term Christian The word will be more serviceable therefore if used in a more limited sense From the fourth century to the sixteenth art was developed primarily in the service of the Christian religion Not only were the subjects treated for the most part related to its history and practices but in their expression we can easily trace habits of thought and ideals which were derived wholly or in part from this faith During the latter part of this period other influences were plainly at work and that increasingly The revival of interest in the ancient culture was the most conspicuous and conscious of these influences but not the most potent About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged
