Paulus, Bernard Arjan Nijstad, 2019 Although creativity is often considered an individual ability or activity innovation in teams and organizations involves collaboration of people with diverse perspectives knowledge and skills The effective development of collaborative innovations and solutions to problems is critical to the success of teams and organizations but research has also demonstrated many factors which tend to limit the effectiveness of collaborative innovation of groups and teams This volume highlights recent theoretical empirical and practical developments that provide a solid basis for the practice of collaborative innovation and future research It draws from a broad range of research perspectives including cognition social influence groups teams creativity communication networks information systems organizational psychology engineering computer science and the arts This volume is an important source of information for students scholars practitioners and others interested in understanding the complexity of the group creative process and tapping the creative potential of groups and teams Leadership Craft, Leadership Art S. Taylor, 2012-01-02 Taylor leads readers through creativity and how it relates to leadership followed by the five stages of theory behind the idea 1 preparation

2 time off or incubation 3 the spark 4 selection and 5 elaboration *ECKM 2018 19th European Conference on Knowledge Management* Ettore Bolisani, Eleonora Di Maria, Enrico Scarso, 2018-09-06 Creativity and Innovation Terence Lee, Lauren O'Mahony, Pia Lebeck, 2023-01-28 This book provides a broad overview of the theory and practice of creativity and innovation. It is an interdisciplinary study that synthesizes the popular complex and contemporary discourses on the topic. The approach of the book is centred on praxis that is it is grounded strongly in research based theories but aims to offer ideas on how to apply creativity and innovation in the everyday context. The authors present an expansive and well informed perspective on creativity and innovation that transcends any single discipline or specialist area making the book accessible, readable and memorable. Above all the reader will be able to read the book with a high degree of ease, grasp and retain key and critical concepts of creativity and the creative process and innovation and the innovative process as well as consider ways of applying them in their everyday lives across all vocations and professional contexts **Smart Education and Sustainable Learning Environments in Smart Cities** Sorayyaei Azar, Ali, Gupta, Shashi Kant, Al Bataineh, Khaleel Bader, Maurya, Nitu, Somani, Parin, 2025-02-13 As urbanization accelerates and technological advancements continue to reshape our cities, the integration of smart technologies into urban development has become prominent. At the same time, the education sector faces challenges in adapting to the demands of a rapidly changing world. There is a growing need to prepare students for the digital age while fostering environmental consciousness and sustainability. These smart learning environments are designed to be flexible, accessible and sustainable, aligning with the broader goals of smart cities to optimize resources, reduce environmental impact and promote social equity. As cities evolve, the creation of sustainable learning environments becomes essential for academic achievement and the preparation of future generations. *Smart Education and Sustainable Learning Environments in Smart Cities* explores the intersection of education and smart technology. It investigates how smart technologies can be used to create inclusive, innovative and environmentally sustainable educational ecosystems within the context of modern urban development. This book covers topics such as learning styles, data science and cloud technology and is a useful resource for computer engineers, educators, academicians, urban developers, policymakers, government officials and researchers *Pioneering Minds Worldwide* Giep Hagoort, Aukje Thomassen, Rene Kooyman, 2012 Even after the recent economic crisis, cultural and creative industries are still able to easily draw audience members and consumers as well as new talent to enrich these fields. Exploring the topic from economic, artistic and policymaking perspectives, *Pioneering Minds Worldwide* is an interdisciplinary approach to these trades on a global scale while making an important distinction between the cultural sector products that are consumed on the spot such as concerts or dance performances and the creative sector which generates artistic products that we have a protracted interaction with, i.e. design, architecture and advertising. The authors of these highly informative essays offer new concepts and viewpoints on the entrepreneurial dimension of the cultural and creative industries in sixteen countries and explore how urban area development, new technological innovations

and education all influence these continually expanding industries *Design Praxiology and Phenomenology* Lynde Tan, Beaumie Kim, 2022-09-03 This book offers insight into designerly ways of knowing from the perspectives of experts and professionals engaging in diverse forms of design in workplaces and other public domains It also aids in the understanding of design practices from designers viewpoints via case studies By pursuing a reflective inquiry in their design epistemology designerly ways of knowing design praxiology practices of design or design phenomenology forms of designs self studies of design practices and presenting studies of designs the authors of this book demonstrate how they influence the people and the object of inquiry or design The case studies presented in this book also illustrate how designers develop their expertise and provides inspiration for the incorporation of design thinking and practice in education *The Handbook of Creativity & Innovation in Business* Rouxelle de Villiers, 2022-08-04 This book enables readers to develop their own creative thinking and their teams creative problem solving skills to generate novel useful and surprising ideas The vast majority of companies believe that a culture of innovation and renewal impacts performance and ultimately business results In contrast many managers feel ill equipped to promote a culture of creative endeavour for this type of work environment and lack the know how to put it into practice This book covers theory practice and impact metrics of both convergent and divergent thinking tools and provide managers with the ideas tools and guidance to develop a corporate culture conducive to intrapreneurial thinking idea creation and testing and moving inventions from ideas to viable business concepts products and profitable innovations This book includes numerous step by step tutorials to help the reader to learn concepts quickly **MASTERY IN THE MAKING** Moira Devlin, 2021-09-13 Welcome to a world of limitless possibilities in Mastery in the Making Navigating the Future with Essential Life Skills Your Journey as a Leader in Tomorrow s Organisations 2035 and Beyond In today s whirlwind of careers the challenge is clear crafting a skill set that s not just relevant but also secures your foothold in an ever changing landscape The 4th industrial and agricultural revolutions are shaking things up compelling organisations to revamp renew or sometimes completely reinvent their business models Picture this Organisations and governments are sprinting towards the future propelled by the Revolutions Climate Change and the recent Pandemic The future is speeding toward us and there s no time to wait Ever wished you could time travel to get a sneak peek into what lies ahead Imagine absorbing the wisdom of the future and bringing it back to shape your present career While we haven t mastered time travel yet fear not This book is your virtual time machine propelling you into the year 2035 and beyond casting you as the central character in a play set within the organisations of the future Get ready for a gripping adventure laid out in an easy to navigate format complete with engaging graphics and scenarios grounded in real business experiences and believable future organisations Each chapter unfolds with a captivating career and business case study set in 2035 guiding you through a four step process to grasp the essence of the subject Picture yourself immersing in the chapter s theme enriched with theories insights and tasks tailored to your chapter of the moment career in 2035 But hold on this book isn t just about business it s a journey

Research in Organizational Behavior Barry Staw, Roderick M Kramer, 2002-12-03 The chapters in this collection address a variety of concerns in organizational theory ranging from the evolution of organizations and cross cultural analyses of managerial behavior to the micro sociology of knowledge brokering within organizations and the etiology of organizational messes Swaminathan examines resource partitioning theory an important theoretical perspective in population ecology The next three chapters broadly construed address issues of organizational innovation learning and adaptation in complex environments The next contribution by John Carroll Jenny Rudolph and Sachi Hatakenaka examines how high hazard organizations learn from experience As with all organizations high hazard organizations such as nuclear power plants and chemical plants attempt to learn from experience in order to improve performance and of course to avoid catastrophic failure Unlike many other kinds of organizations however failure to learn from prior experience especially with respect to learning effectively from errors and mishaps can prove extremely costly and even fatal Hence these organizations must balance between learning and control and must do so under conditions of considerable oversight and scrutiny provocative analysis of the role disorganization plays in organizational life The two following chapters in this volume provide important overviews of theory and research on classic phenomena within organizational theory followed by original theoretical syntheses Robert

Baron's chapter then undertakes a fresh and useful examination of the burgeoning literature on entrepreneurship and the two final chapters in the volume examine essential issues related to our understanding of organizations and the cultural environments in which they are embedded

The Idea Hunter Andy Boynton, Bill Fischer, 2011-04-04 A different way of discovering and developing the best business ideas Jack Welch once said Someone somewhere has a better idea In this myth busting book the authors reveal that great business ideas do not spring from innate creativity or necessarily from the brilliant minds of people Rather great ideas come to those who are in the habit of looking for great ideas all around them all the time Too often people fall into the trap of thinking that the only worthwhile idea is a thoroughly original one Idea Hunters know better They understand that valuable ideas are already out there waiting to be found and not just in the usual places Shows how to expand your capacity to find and develop winning business ideas Explains why ideas are a critical asset for every manager and professional not just for those who do creative Reveals how to seek out and select the ideas that best serve your purposes and goals and define who you are as a professional Offers practical tips on how to master the everyday habits of an Idea Hunter which include cultivating great conversations The book is filled with illustrative accounts of successful Idea Hunters and stories from thriving idea companies Warren Buffet Walt Disney Thomas Edison Mary Kay Ash Twitter and Pixar Animation Studios are among the many profiled

Every American an Innovator Matthew

Wisnioski,2025-05-13 A landmark cultural history that reveals how the relentless pursuit of innovation has transformed our society our institutions and our inner selves For half a century innovation served as a universal good in an age of fracture That consensus is cracking While the imperative to innovate for a better future continues to fuel systemic change around the world critics now assail innovation culture as an engine of inequality or accuse its do gooders of woke groupthink What happened Drawing on a decade of research *Every American an Innovator* by Matthew Wisnioski investigates how innovation a once obscure academic term became ingrained in our institutions our education and our beliefs about ourselves Wisnioski argues that innovation culture did not spring from the digital revolution nor can it be boiled down to heroic entrepreneurs or villainous capitalists Instead he reveals the central role of a new class of experts in spreading toolkits and mindsets from the cornfields of 1940s Iowa to Silicon Valley tech giants today This group of engineers philosophers bureaucrats and business leaders posited that innovators were society s most important change agents and remade the nation in their image The innovation culture they built transcended partisan divisions and made strange bedfellows Wisnioski shows how Kennedy era policymakers inspired President Nixon s dream of a Nobel Prize for innovators how anti military professors built the first university incubators for entrepreneurs how radical feminists became millionaire consultants how demands for a rust belt manufacturing renaissance inspired theories of a global creative class how programs that encouraged girls and minority children to pursue innovative lives changed the nature of childhood play and why the innovation consensus is now in dispute

Martial Aesthetics Anders Engberg-Pedersen, 2023-03-07 The twenty first century has witnessed a pervasive militarization of aesthetics with Western military institutions co-opting the creative worldmaking of art and merging it with the destructive forces of warfare In *Martial Aesthetics* Anders Engberg Pedersen examines the origins of this unlikely merger showing that today's creative warfare is merely the extension of a historical development that began long ago Indeed the emergence of martial aesthetics harkens back to a series of inventions ideas and debates in the eighteenth and early nineteenth century Already then military thinkers and inventors adopted ideas from the field of aesthetics about the nature purpose and force of art and retooled them into innovative military technologies and a new theory that conceptualized war not merely as a practical art but as an aesthetic art form This book shows how military discourses and early war media such as star charts horoscopes and the Prussian wargame were entangled with ideas of creativity genius and possible worlds in philosophy and aesthetic theory by thinkers such as Leibniz Baumgarten Kant and Schiller in order to trace the emergence of martial aesthetics Adopting an approach that is simultaneously historical and theoretical Engberg Pedersen presents a new frame for understanding war in the twenty first century
