much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare volumes that not only will provide reference materials for years to come but also will feature centrally in classroom discussions Suzanne Preston Blier author of African Vodun Art Psychology and Power For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of responses to works categorized as primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable Dore Ashton author of Noguchi East and West An extraordinarily useful and complete collection of primary documents many translated for the first time into English and
