Sports Carlos Eduardo Gonçalves, Humberto M. Carvalho, Arne Güllich, 2023-11-16 The last decade witnessed a plethora of
 literature about talent identification and talent development Most of the research is descriptive In addition an enormous
 quantity of publications attempted to define normative guidelines but mostly with relatively little empirical evidence to
 support them We believe it is time to overview the field critically appraise the situation of research and map the topics trends
 and gaps The large part of recent research has focused on talent identification and the factors that reveal talents In contrast
 relatively less research has addressed the question how young talents develop in a long term process towards becoming
 senior high performers This is an evolving field and research is still in a primarily explorative stage A variety of different
 study designs and methodological approaches have been employed to explore different factors and outcomes of talent
