Art/Museums Christine Sylvester, 2015-12-03 Art Museums takes the study of international relations to the art museum It seeks to persuade those who study international relations to take art museums seriously and museum studies to take up the insights of international relations And it does so at a time when both international relations and art are said to be at an end that is out of control and beyond sight of their usual constituencies The book focuses on the British Museum the National Gallery of London the Museum of Iraq the Museum of Modern Art in New York the Getty museums the Guggenheim museums and museum spaces instantly created by the attacks on the World Trade Center in 2001 The art includes works over which museums might struggle acquire through questionable means hoard and possibly lose such as the Parthenon sculptures Raphael s Madonna of the Pinks the ancient art of Babylon modern art and the art museum itself in an era of rapid museum expansion Bringing art museums and international relations together draws on the art technique of collage which combines disparate objects themes and time periods in one work to juxtapose unexpected elements leaving the viewer to relate objects that are not where they are expected to be The Art of the Turkish Tale Barbara K. Walker, 1990 In casting them into English Walker has paid particular attention to capturing the flavor and excitement of the Turkish telling while not infringing on the narrator s right to have the tale recreated as he had told it The Beauty power and appeal of the present volume for the general reading public however depends largely upon Barbara Walker s own consummate skill as a teller and re teller of tales and her commitment to conveying as much of the Turkish performance context as possible In a gesture which is perhaps symptomatic of the reasons for this volume s success Barbara Walker recognizes in the Acknowledgments section each and every tale teller by name all forty of them ranging in age from nine to ninety and coming from the many different walks of life both urban and rural to be found in twenty out of Turkey s seventy four provinces from Mugla to Kars and from Istanbul to Diyarbakir In presenting the works of all these generous bearers of tradition to an English speaking audience she has achieved her aim of opening a small window on the art of the Turkish tale in a volume which stands as a tribute to the art of book making as well Sarah Moment Atis Chair Middle East Studies Program University of Wisconsin Madison President Turkish Studies Association This will stand as a fine quintessential contribution One hears the whispers of the original voices in these versions all of which are artful recast in colloquial rhythms and couched in a style that conveys the substance the shape the spirit and the sumptuousness or the simplicity of the tale Talat Sait Halman Turkey s former Minister of Culture then Ambassador for Cultural Affairs now Professor of Near Eastern Languages and Literatures New York University **The Saturday Review of Politics, Literature, Science, Art, and Finance** ,1874 **Religious**
