## **Art Of Warfare In The Age Of Napoleon:**

*The Art of Warfare in the Age of Napoleon* Gunther E. Rothenberg, 1980 Some 12 years ago it was estimated that well over 300 000 works existed on this period and since then several thousand more have appeared Therefore it might be reasonably argued that there is little room for another volume Nonetheless this vast outpouring of literature has usually dealt with major leaders specific battles or campaigns and with certain branches of the service Moreover at least in English the literature tends to concentrate primarily on the French or British armies There appears to be a lack of works combining a description of the major changes and trends in the art of war especially at the cutting edge of events with a discussion of the French military establishment and the armies of the major opponents British as well as continental And while this book is only a brief survey I do believe that it may serve as a contribution towards filling this gap in our historical knowledge of military institutions and fighting men

*The Art of Warfare in the Age of Napoleon* Gunther Erich Rothenberg, 1995 **The Art of War. From the Age of Napoleon to the Present Day** Cyril Bentham FALLS, 1961 The Art of War Cyril Falls, 1961 Napoleon and the Operational Art of War, 2020-11-23 In this revised and extended edition of *Napoleon and the Operational Art of War* the leading scholars of Napoleonic military history provide the most authoritative analysis of Napoleon's battlefield success and ultimate failure Napoleon's development and mastery of the operational art of warfare is revealed as each chapter analyzes one Napoleonic war or major campaign of a war To achieve this the essays conform to the common themes of Napoleon's planning his command and control his execution of plans and the response of his adversaries Napoleon's sea power and the British response to the French challenge at sea is also investigated Overall this volume reflects the finest scholarship and cutting edge research to be found in Napoleonic military history Contributors include Jonathan Abel Robert M Citino Phillip R Cuccia Huw J Davies Mark T Gerges John H Gill Jordan R Hayworth Kenneth G Johnson Michael V Leggiere Kevin D McCranie Alexander Mikaberidze Frederick C Schneid John Severn Dennis Showalter Geoffrey Wawro and John F Weinzierl See inside the book *Napoleon and the Art of Leadership* William Nester, 2021-03-03 This deep dive into the mind of the complex controversial political and military leader is a great addition to the field of Napoleonic Journal of Military History No historical figure has provoked more controversy than Napoleon Bonaparte Was he an enlightened ruler or brutal tyrant An insatiable warmonger or a defender of France against the aggression of the other great powers Kind or cruel farsighted or blinkered a sophisticate or a philistine a builder or a destroyer Napoleon was at once all that his partisans laud his enemies condemn and much more He remains fascinating because he so dramatically changed the course of history and had such a complex paradoxical character One thing is certain If the art of leadership is about getting what one wants then Napoleon was among history's greatest masters He understood and asserted the dynamic relationship among military economic diplomatic technological cultural psychological and thus political power War was the medium through which he was able to demonstrate his innate skills leading his armies to victories across Europe He

overthrew France's corrupt republican government in a coup then asserted near dictatorial powers. Those powers were then wielded with great dexterity in transforming France from feudalism to modernity with a new law code, canals, roads, ports, schools, factories, national bank, currency and standard weights and measures. With those successes he convinced the Senate to proclaim him France's emperor and even got the pope to preside over his coronation. He reorganized swaths of Europe into new states and placed his brothers and sisters on the thrones. This is Napoleon as has never been seen before. No previous book has explored his seething labyrinth of a mind more deeply and broadly or revealed more of its complex provocative and paradoxical dimensions. Napoleon has never before spoken so thoroughly about his life and times through the pages of a book nor has an author so deftly examined the veracity or mendacity of his words. Within are dimensions of Napoleon that may charm, appall or perplex many buried for two centuries and brought to light for the first time. Napoleon and the Art of Leadership is a psychologically penetrating study of the man who had such a profound effect on the world around him that the entire era still bears his name.

**Warfare in the Age of Napoleon-Volume 6** Theodore A. Dodge, 2011-08. The final volume of a major work on warfare in the Napoleonic age. The author of this substantial multi-volume history, Theodore A. Dodge, was not only an historian of stature and note but also a soldier. He wrote several well-regarded histories of the campaigns and battles of the Civil War and other works of military history. Perhaps his most outstanding achievement was a series of books published under the umbrella title *The Art of War* focusing on different historical periods as typified by their most notable military commanders, including the campaigns of Alexander, Hannibal and Caesar in the ancient world and the wars of the 17th and 18th century as fought by great captains including Gustavus Adolphus, Frederick and Marlborough. This volume is part of his in-depth study of the Napoleonic period which in its entirety was comprised of four huge volumes that benefited from the inclusion of almost 800 small-scale uniform drawings, portraits of notable personalities and numerous theatre, campaign and battlefield maps. This retitled Leonaux edition has been revised to form volumes of approximately equal size, reformatted to enable us to enlarge all the illustrations and maps for the benefit of the reader. This series is an excellent history of the campaigns and battles of the Napoleonic Age but it goes far beyond the historical record. Dodge critically examines the strategies and tactics of all the military commanders in such a clear and authoritative manner that the student of military history can clearly understand the errors of those about to suffer defeat and the expertise or, in the case of Napoleon Bonaparte, the military genius of the victors. This is an invaluable guide to warfare in the age of Napoleon and is highly recommended. This final volume of Dodge's brilliant account of the art of war in the Napoleonic Age concludes with the period to the end of the First Empire when the fortunes of the imperial allies turned in their favour and Napoleon and his forces, weakened by reverses, were unable to contain them. Napoleon's brilliance in the campaigns of 1814 showed that he was still an incomparable grand commander on the field of battle, especially in engagements when the odds were against him. The war had turned to one of attrition so the Empire fell, the emperor abdicated, the Bourbon monarchy was restored and

Europe breathed a collective sigh of relief But it was not quite the end Napoleon s last great gamble for a return to power The Hundred Days and the Campaign of 1815 culminating in the great battle of Waterloo on June 18th 1815 brought the most significant commanders of both sides to a field of conflict for the first and last time Leonaaur editions are newly typeset and are not facsimiles each title is available in softcover and hardback with dustjacket The Art of War in the Western World Archer Jones,2001 The magnum opus of one of America s most respected military historians The Art of War in the Western World has earned its place as the standard work on how the three major operational components of war tactics logistics and strategy have evolved and changed over time This monumental work encompasses 2 500 years of military history from infantry combat in ancient Greece through the dissolution of the Roman Empire to the Thirty Years War and from the Napoleonic campaigns through World War II which Jones sees as the culmination of modern warfare to the Israeli Egyptian War of 1973 **Strategy for Chaos** Colin S. Gray,2002 The remit of this study is to encourage further studies that make an honest and successful effort to achieve synergy between social science and history when analysing the impact of revolutions in military affairs RMAs The German Way of War Robert Michael Citino,2005 For Frederick the Great the prescription for warfare was simple kurz und vives short and lively wars that relied upon swift powerful and decisive military operations Robert Citino takes us on a dramatic march through Prussian and German military history to show how that primal theme played out time and time again Citino focuses on operational warfare to demonstrate continuity in German military campaigns from the time of Elector Frederick Wilhelm and his great sleigh drive against the Swedes to the age of Adolf Hitler and the blitzkrieg to the gates of Moscow Along the way he underscores the role played by the Prussian army in elevating a small vulnerable state to the ranks of the European powers describes how nineteenth century victories over Austria and France made the German army the most respected in Europe and reviews the lessons learned from the trenches of World War I *The Evolution of Operational Art, 1740-1813* Claus Telp,2005 This book is a new look at the evolution of operational art and its complex roots in history **Germany and the Axis Powers from Coalition to Collapse** R. L. DiNardo,2005 It seemed that whenever Mussolini acted on his own it was bad news for Hitler Indeed the Fuhrer s relations with his Axis partners were fraught with an almost total lack of coordination Compared to the Allies the coalition was hardly an alliance at all Focusing on Germany s military relations with Italy Romania Hungary and Finland Richard DiNardo unearths a wealth of information that reveals how the Axis coalition largely undermined Hitler s objectives from the Eastern Front to the Balkans Mediterranean and North Africa DiNardo argues that the Axis military alliance was doomed from the beginning by a lack of common war aims the absence of a unified command structure and each nation s fundamental mistrust of the others Germany was disinclined to make the kinds of compromises that successful wartime partnerships demanded and because Hitler insisted on separate pacts with each nation Italy and Finland often found themselves conducting counterproductive parallel wars on their own DiNardo s detailed assessments of ground naval and air operations reveal

precisely why the Axis allies were so dysfunctional as a collective force sometimes for seemingly mundane but vital reasons a shortage of interpreters for example His analysis covers coalition warfare at every level demonstrating that some military services were better at working with their allies than others while also pointing to rare successes such as Rommel's effective coordination with Italian forces in North Africa In the end while some individual Axis units fought with distinction if not on a par with the vaunted Wehrmacht and helped Germany achieve some of its military aims the coalition's overall military performance was riddled with disappointments Breaking new ground DiNardo's work enlarges our understanding of Germany's defeat while at the same time offering a timely reminder of the challenges presented by coalition warfare

Marching Through Chaos John A. English, 1996-12-09 In spite of the outcome of the Cold War English argues persuasively here that the nuclear defensive posture adopted by the North Atlantic Treaty Organization NATO was inherently flawed Victory in the Cold War moreover seems to have increased the attractiveness of this potentially dangerous model In fact NATO's attempts to replace conventional armies with nuclear technology represented a misreading of history inasmuch as war has always been more of a social than technological phenomenon From his succinct survey of the growth and operations of field armies from medieval times to the Gulf War English concludes that the legitimately constituted conventional army of the nation state still remains the best instrument for bringing some semblance of order to the destructive chaos of war The development of field armies has involved much more sophistication than generally supposed In both practice and theory army operations have been as knowledge based and intellectually rigorous as any academic discipline ensuring them an enduring place as a practical means of applying massive force Fortunately the NATO attempt to replace conventional armies with nuclear technology was never tested in a real war But English suggests that the likelihood of deterrence continuing in war because of its transmutability also offers hope that it can be controlled in the future as it was in the past by social forces This book offers a longer more realistic view of war than that normally embraced by technocrats in search of better weapons and peacemakers in search of utopia This book also addresses in detail the questions of why armies became so large and why war itself transmuted The technological transformation of war that occurred after 1815 is discussed in turn for the effect it exerted upon the future operations of armies A novel perspective on the tactical and operational progression of warfighting up to the end of World War II is also provided through an examination of modern defensive theory On a more elevated plane the book critically assesses the ways in which nuclear deterrence ultimately affected NATO's defensive posture in central Europe Also subjected to detailed scrutiny are the theoretical and practical dimensions of ground force concepts for the defense of the NATO central front Finally English evaluates ground force operations in the Gulf War with a view to drawing relevant conclusions and lessons for the future

**A History of the Laws of War: Volume 2** Alexander

Gillespie, 2011-10-07 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible

to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them protecting civilians who are either inadvertently or intentionally caught up between them and controlling the use of particular classes of weapons that may be used in times of conflict Thus it is that this work is divided into three substantial parts Volume 1 on the laws affecting combatants and captives Volume 2 on civilians and Volume 3 on the law of arms control This second book on civilians examines four different topics The first topic deals with the targetting of civilians in times of war This discussion is one which has been largely governed by the developments of technologies which have allowed projectiles to be discharged over ever greater areas and attempts to prevent their indiscriminate utilisation have struggled to keep pace The second topic concerns the destruction of the natural environment with particular regard to the utilisation of starvation as a method of warfare and unlike the first topic this one has rarely changed over thousands of years although contemporary practices are beginning to represent a clear break from tradition The third topic is concerned with the long standing problems of civilians under the occupation of opposing military forces where the practices of genocide collective punishments and or reprisals and rape have occurred The final topic in this volume is about the theft or destruction of the property of the enemy in terms of either pillage or the intentional devastation of the cultural property of the opposition As a work of reference this set of three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself

**A History of the Laws of War: Volume 1** Alexander Gillespie, 2011-09-06 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and regulating the treatment of captives This first book on warfare deals with the broad question of whether the patterns of dealing with combatants and captives have changed over the last 5 000 years and if so how In terms of context the first part of the book is about combatants and those who can lawfully take part in combat In many regards this part of the first volume is a series of less than ideal pathways This is because in an ideal world there would be no combatants because there would be no fighting Yet as a species we do not live in such a place or even anywhere near it either historically or in contemporary times This being so a second best alternative has been to attempt to control the size of military forces and therefore the bloodshed This is also not the case by which humanity has worked over the previous centuries Rather the clear assumption for thousands of years has been that authorities are allowed to build the size of their armed forces as large as they wish The restraints that have been applied are in terms of the quality

and methods by which combatants are taken The considerations pertain to questions of biology such as age and sex geographical considerations such as nationality and the multiple nuances of informal or formal combatants These questions have also overlapped with ones of compulsion and whether citizens within a country can be compelled to fight without their consent Accordingly for the previous 3 000 years the question has not been whether there should be a limit on the number of soldiers but rather who is or is not a lawful combatant It has rarely been a question of numbers It has been and remains one of type The second part of this book is about people typically combatants captured in battle It is about what happens to their status as prisoners about the possibilities of torture assistance if they are wounded and what happens to their remains should they be killed and their bodies fall into enemy hands The theme that ties all of these considerations together is that all of the acts befall those who are to one degree or another captives of their enemies As such they are no longer masters of their own fate As a work of reference this first volume as part of a set of three is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself **Beyond the Battleground** Tom Bisio,2016-05-17

Drawing on ideas from classical military strategy the Yijing Book of Changes and Chinese martial arts theory Tom Bisio presents a fascinating exploration of how insights from these sources can be deployed to manage crisis situations in all aspects of our daily lives Suggesting approaches for cultivating a strategic mindset that can be applied to one s relationships work and personal self fulfillment Beyond the Battleground offers methods of adapting to circumstances conserving one s own resources and avoiding or dissolving conflict that will aid any reader navigating the uncertainties of the changing world including the business person military theorist or martial artist Deftly interweaving his background in East Asian philosophy and history and his career in traditional Chinese medicine with his lifelong interest in the martial arts and military science Bisio also presents examples of successful strategies from history s great commanders such as Sunzi Alexander the Great Napoleon and Mao Zedong The Art of Strategy: Napoleon's Maxims of War + Clausewitz's On War Carl von Clausewitz,Napoleon Bonaparte,2023-12-20 The Art of Strategy Napoleon s Maxims of War Clausewitz s On War is a profound exploration into the cerebral domain of military strategy and philosophical warfare This anthology juxtaposes the timeless insights of two pivotal figures in military history uniting the tactical acuity of Napoleon Bonaparte s maxims with the analytical rigor of Carl von Clausewitz s On War Through a diverse array of literary styles from the succinct and pragmatic observations of Napoleon to the expansive contemplative essays of Clausewitz this collection encompasses the dynamic spectrum of thought that defined military engagement during their era The significance of these combined works lies not just in their historical value but in their enduring relevance to contemporary discussions about leadership strategy and human conflict The backgrounds of the contributing authors are as illustrious as the works themselves Napoleon Bonaparte a master tactician and statesman offers lessons drawn from his unparalleled experience on the battlefield while Carl von Clausewitz a

Prussian general and military theorist provides a philosophical framework that has influenced countless military and political leaders This anthology aligns with the intellectual currents of the Enlightenment and the Napoleonic era bringing together diverse voices that illuminate the theoretical and practical dimensions of strategy For readers eager to traverse the complex landscape of strategic thought this anthology offers an unparalleled gateway The varied perspectives from two renowned strategists provide a compelling narrative that interlaces practical insights with deep theoretical discourse It is a vital resource for students of history military enthusiasts or anyone intrigued by the art of leadership and decision making By engaging with these texts readers are afforded a unique opportunity to appreciate the multitude of strategies that continue to resonate in both historical and modern contexts In this enriched edition we have carefully created added value for your reading experience An Introduction draws the threads together discussing why these diverse authors and texts belong in one collection Historical Context explores the cultural and intellectual currents that shaped these works offering insight into the shared or contrasting eras that influenced each writer A combined Synopsis Selection briefly outlines the key plots or arguments of the included pieces helping readers grasp the anthology s overall scope without giving away essential twists A collective Analysis highlights common themes stylistic variations and significant crossovers in tone and technique tying together writers from different backgrounds Reflection questions encourage readers to compare the different voices and perspectives within the collection fostering a richer understanding of the overarching conversation

(The Proceedings of the Combat Studies Institute [sic] 2005 Military History Symposium) ,      **The Ancient Art of Warfare: The modern ages; 1700 to our times, from Peter the Great to Eisenhower, soldiers of cannons, tanks, and planes**  
Jacques Bourdet,1968

Art Of Warfare In The Age Of Napoleon: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. Art Of Warfare In The Age Of Napoleon : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Art Of Warfare In The Age Of Napoleon : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.

### Art Of Warfare In The Age Of Napoleon Introduction

In the digital age, access to information has become easier than ever before. The ability to download Art Of Warfare In The Age Of Napoleon has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Art Of Warfare In The Age Of Napoleon has opened up a world of possibilities. Downloading Art Of Warfare In The Age Of Napoleon provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a

button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Art Of Warfare In The Age Of Napoleon has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Art Of Warfare In The Age Of Napoleon. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Art Of Warfare In The Age Of Napoleon. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Art Of Warfare In The Age Of Napoleon, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Art Of Warfare In The Age Of Napoleon has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### FAQs About Art Of Warfare In The Age Of Napoleon Books

**What is a Art Of Warfare In The Age Of Napoleon PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Art Of Warfare In The Age Of Napoleon PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document

as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Art Of Warfare In The Age Of Napoleon PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Art Of Warfare In The Age Of Napoleon PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Art Of Warfare In The Age Of Napoleon PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
