Smart,2010 Renowned as one of the most significant museums built by private collectors the Menil Collection in Houston Texas seeks to engage viewers in an acutely aesthetic rather than pedagogical experience of works of art The Menil s emphasis on being moved by art rather than being taught art history comes from its founders conviction that art offers a way to reintegrate the sacred and the secular worlds Inspired by the French Catholic revivalism of the interwar years that recast Catholic tradition as the avant garde Dominique and John de Menil shared with other Catholic intellectuals a desire to reorder a world in crisis by imbuing modern cultural forms with religious faith binding the sacred with the modern Sacred Modern explores how the Menil Collection gives expression to the religious and political convictions of its founders and how the Menil way is being both perpetuated and contested as the Museum makes the transition from operating under the personal direction of Dominique de Menil to the stewardship of career professionals Taking an ethnographic approach Pamela G Smart analyzes the character of the Menil aesthetic the processes by which it is produced and the sensibilities that it is meant to generate in those who engage with the collection She also offers insight into the extraordinary impact Dominique and John de Menil had on the emergence of Houston as a major cultural center **Modern Art and the Life of a Culture** Jonathan A. Anderson,William A. Dyrness,2016-05-23 In 1970 Hans Rookmaaker published

Le Corbusier. Le Couvent Sainte Marie de La Tourette / The Monastery of Sainte Marie de La Tourette Philippe Potié, 2015-04-24 In 1952 Le Corbusier was commissioned to dwell in the silence of men of prayer and study and to construct a church for them The result was his impressive Convent of La Tourette marking a significant step in modern religious architecture Beginning with the rectangular form common to the Cistercian monastic tradition he created a building whose stark form contrasts beautifully with the organic elements of the interior court and the grasslands surrounding it The church itself is a model of simplicity the cement has been left rough and the well located sources of light evoke a feeling of silence and reflection The order's precept of prayer study and reflection is aptly mirrored in the architecture Like the other Le Corbusier Guides published by Birkhäuser this volume provides a wealth of plans details photographs and information on this building which today is also a conference centre
