Fox, 2007-08-01 Las Vegas says William Fox is a pay as you play paradise that succeeds in satisfying our fantasies of wealth and the excesses of pleasure and consumption that go with it In this context Fox examines how Las Vegas s culture of spectacle has obscured the boundaries between high art and entertainment extravaganza nature and fantasy for profit and nonprofit enterprises His purview ranges from casino art galleries including Steve Wynn s private collection and a branch of the famed Guggenheim Museum to the underfunded Las Vegas Art Museum from spectacular casino animal collections like those of magicians Siegfried and Roy and Mandalay Bay s Shark Reef exhibit to the city s lack of support for a viable public zoo from the environmental and psychological impact of lavish water displays in the arid desert to the artistic ambiguities intrinsic to Las Vegas s floating world of showgirls lapdancers and ballet divas

That Las Vegas represents one of the world's most opulent displays of private material wealth in all its forms while providing miserly funding for local public amenities like museums and zoos is no accident. Fox maintains. Nor is it unintentional that the city's most important collections of art and exotic fauna are presented in the context of casino entertainment part of the feast of sensation and excitement that seduces millions of visitors each year. Instead this phenomenon shows how our insatiable modern appetite for extravagance and spectacle has diminished the power of unembellished nature and the arts to teach and inspire us and demonstrates the way our society privileges private benefit over public good. Given that Las Vegas has been a harbinger of national cultural trends, Fox's commentary offers prescient insight into the increasing commercialization of nature and culture across America. Buying Baroque Edgar Peters Bowron, 2017-03-28 Although Americans have shown interest in Italian Baroque art since the eighteenth century, Thomas Jefferson bought copies of works by Salvator Rosa and Guido Reni for his art gallery at Monticello and the seventeenth-century Bolognese school was admired by painters Benjamin West and John Singleton Copley. A widespread appetite for it only took hold in the early to mid-twentieth century. *Buying Baroque* tells this history through the personalities involved and the culture of collecting in the United States. The distinguished contributors to this volume examine the dealers, auction houses, and commercial galleries that provided access to Baroque paintings as well as the collectors, curators, and museum directors who acquired and shaped American perceptions about these works, including Charles Eliot Norton, John W. Ringling, A. Everett Austin Jr., and Samuel H. Kress. These essays explore aesthetic trends and influences to show why Americans developed an increasingly sophisticated taste for Baroque art between the late eighteenth century and the 1920s and they trace the fervent peak of interest during the 1950s and 1960s. A wide-ranging in-depth look at the collecting of seventeenth and eighteenth-century Italian paintings in America, this volume sheds new light on the cultural conditions that led collectors to value Baroque art and the significant effects of their efforts on America's greatest museums and galleries. In addition to the editor, contributors include Andrea Bayer, Virginia Brilliant, Andria Derstine, Marco Grassi, Ian Kennedy, J. Patrice Marandel, Pablo Pérez d'Ors, Richard E. Spear, and Eric M. Zafran
